

HOOVER WINS IN G. O. P. LANDSIDE

As final returns on Tuesday's greatest vote in the history of the United States were gradually coming to a close, 444 electoral votes had been added to the Hoover-Curtis column, leaving the Democratic standard bearer, Alfred E. Smith, only eight States and 87 electoral votes.

Hoover has 17,431,989 and Smith 12,487,174 of the popular total with approximately three-fourths of the ballots tabulated. The Republicans swept into power for another four-year period, carrying 40 States including four in the Solid South, North Carolina, Virginia, Florida and Texas. Only Massachusetts and Rhode Island remained under the Smith-Robinson colors outside of the South, normally Democratic States.

Missouri again swung into the Republican camp in both National and State affairs, when Patterson defeated Hay for United States Senator, and Caulfield won over Wilson for Governor and with only a few precincts missing. The Republican majority in the State will probably reach 60,000, ranging at present from about 40,000 for Caulfield over Wilson to more than 50,000 for candidates for minor offices. A plurality of nearly 50,000 was indicated for Patterson over Charles M. Hay, Democrat.

Counties Goes Republican
With few exceptions, surrounding counties went Republican. Stoddard County elected only one Democratic candidate, a County Judge. The rest of the ticket gave Republican majorities from 250 to 700 in other county offices. It was the first time in eight years that the county has gone Republican.

With the exception of the Sheriff's race in Cape Girardeau County, it went Republican. Snider defeated Miller, Republican for that office by about 700 votes. New Madrid County, also, is reported to have gone Republican. Scott and Mississippi Counties alone, in this section, carried all or most of the Democratic nominees for County offices.

And so the greatest popular election in all history is added to the past. In Missouri alone, more than 100,000 ballots were cast in excess of any other previous election. The nation as a whole cast an unprecedented number of votes in the election just past, the number will probably exceed early estimates of 43,000,000.

Voting here was orderly throughout the day and night, although some 2200 votes were cast.

AUXILIARY ELECTS OFFICERS FOR 1929

The Auxiliary of the Henry Mel-drum Post No. 114, met with Mrs. W. P. Wilkerson Wednesday evening and after the regular order of business was concluded, the following officers were elected:

President—Mrs. Lyle Malone.
First Vice-President—Mrs. Harry E. Dudley.
Second Vice-President—Mrs. Paul Anderson.

Secretary—Mrs. Tom Roberts.
Treasurer—Mrs. W. A. Anthony.
Chaplain—Mrs. Ben Welter.
Historian—Mrs. E. T. Wheatley.

The Auxiliary will put on a membership drive and all sisters, mothers and wives of Legion men are eligible and should be members.

The Auxiliary will send a box of assorted home-made cookies to the Veterans' Hospital at Excelsior Springs as a Thanksgiving treat. After adjournment, the Auxiliary enjoyed a social hour.

FITZGERALD INJURED ARM IN SCRIMMAGE

A bad twist or sprain of "Skeeter" Fitzgerald's right wrist will probably keep him on the bench until the Cape Girardeau game next week-end. This feather weight guard had the misfortune to have one of Coach Whitmer's men fall on his arm during scrimmage Tuesday evening. Doctors pronounced the arm broken at the time, but an X-ray made the morning following at the hospital, revealed only a bad sprain, but it is enough to keep The Standard's "devil" out of the game for a week at least.

NOTICE

The members of the Russell-Bradley Missionary Society will meet with Mrs. Paul Anderson Friday evening and all members are urged to attend and bring their offering boxes.

Let your ticket mean 10 votes for the Junior Football Queen Candidate.

SCOTT COUNTY GOES 100 PER CENT DEMO

Unofficial count of votes from the twenty-eight precincts in Scott County are given below for the National, State and County offices. Nearly two thousand more votes were polled in the County in this election than ever before. The total count in 1922 was 6013, in 1924, 6968 and this time, 8918 votes were counted.

Scott County went Democratic, but it is an oasis in the Tuesday-created Republican desert. Stoddard and New Madrid Counties, normally Democratic by safe majorities, went Republican to large extent. In the home County, the race for Representative between C. C. White (Democrat) and George Arnold (Republican) was the closest. White polled 4728 votes to 4320 for Arnold. M. E. Montgomery (Democrat) headed the County ticket polling 5472 votes. J. D. O'Connor came second in number of votes received with 5208.

The race for treasurer between Felker and Dye was also close before final returns came in. Felker received 4803 to 4131 by Dye. The race for sheriff between Tom Scott and W. O. Scott went neck and neck for hours as the early returns dribbled in, but the Democratic nominee, Tom Scott, finally won by polling 4740 to 4162 by Bill Scott.

The complete returns follow:
Smith-Robinson 5159, Hoover-Curtis 3759, Charles M. Hay 5555, Roscoe C. Patterson 3418, Francis M. Wilson 5413, Henry S. Caulfield 3531, for Lieutenant-Governor Frank G. Harris 5098, Edward H. Winter 3531.

This ratio is carried out throughout the State ticket with the exception of the race between Fulbright and Short for Representative in Congress in the 14th District. Fulbright polled 5197 votes to 3276 for Short.

County ticket—
For Representative: C. C. White 4728, George J. Arnold 4320; for Judge of the County Court, First District: George Buchanan (returns incomplete) F. E. Mount, however, was defeated by a large majority; Judge Second District: Anton Le-grand won over Solomon Diebold; Prosecuting Attorney: M. E. Montgomery 5472, J. H. Hale 3453; for Sheriff: Tom Scott 4740, W. O. Scott 4162; Assessor: J. D. O'Connor 5208, Floyd E. King 3155; for Treasurer: C. E. Felker 4803, E. A. Dye 4131; Public Administrator: J. Claude Wylie, unopposed; Surveyor: R. L. Harrison 4962, Jas. A. Collier 2880; for Coroner: George R. Dempster 4586, G. T. Dorris 3779; for Constable Richard Township: Brown Jewell 1798, J. H. Hayden 1180.

MRS. DOLLIE DORRIS, HAYTI, REPORTED VERY LOW

Mrs. Dollie Dorris, aged foster mother of Mrs. J. N. Walker, of this city, was reported very low early Thursday morning. Mrs. Walker and daughter, Miss Margaret, left for Hayti, immediately. Mrs. Dorris is about 70 years old, and suddenly became ill.

NOTES ON LEGION SQUARE

The State Highway Department reports that the granite boulder, on which the bronze tablet is to be placed in Legion Square, is on its way from Fredericktown today in a Liberty truck.

It will be unloaded on the Square and work will start at once on facing the space for the tablet.

The drinking fountain is here and Mr. Swanner will commence work on its installation Friday morning.

The Missouri Utilities Company expects to at once remove the two un-used poles on the north edge of the Square.

The bronze tablet arrived Thursday morning by express from New Jersey. The plot carries the following inscription, and is now on display in Buckner-Ragsdale Store Co. window:
LEGION SQUARE

In Memory of Those Men of This Community Who Made The Supreme Sacrifice During the 1917 World War 1918
Erected By
Henry Mel-drum Post No. 114
American Legion
Legion Emblem

Mrs. E. C. Matthews and son, Edw., will go to St. Louis Friday.

Sgt. Jas. L. Greer, of Poplar Bluff U. S. Army Recruiting Service, is in Sikeston in the interest of getting recruits for the army. He will be located at the Hotel Marshall and will be glad to give all the information to anyone interested.

BULLDOG NEWS AND VIEWS

By Kemper Bruton
he Injuns are comin'!
The Jackson Indians will arrive in Sikeston this afternoon (Friday) to try to scalp some Bulldogs. The Bulldogs do not think it can be done. Do you? Come and see.

Considerable excitement was stirred up by Mr. Cunningham Wednesday morning. A contest was started to select a football queen. The candidates chosen were: Seniors—Margaret Baker; Juniors—Josephine Hudson; Sophomores—Ruth Felker; Freshmen—Jeanette Baker.

Margaret Baker is the favorite and seems to be leading by a large majority. The Seniors would appreciate it very much if, when you buy your ticket for the game today (Friday), you would cast your vote for Margaret Baker.

Vote for Margaret Baker for the Football Queen.

The Legion Drum and Bugle Corps will assist in awakening the town to arms tonight (Thursday). Everyone, old and young, turn out for the pep meeting in Legion Square.

Friday is Sikeston's Homecoming. The Bulldogs meet the fast Jackson team and a lively contest is expected. Turn out, folks, and give your home team a real victory!

Vote for Margaret Baker for Football Queen.

Kendall Sikes gave a "stump" speech on the merits and the plattform of his party Thursday morning. James Marshall is expected to put

RUTH FELKER Candidate For FOOTBALL QUEEN OF Sophomore Class Solicits Your Vote and Influence

up a great political fight in this campaign for queen.
Vote for Margaret Baker for Football Queen.

It is too bad that some of the members of one class will be obliged to vote for the candidate of another. Many votes will be lost this way. Lynn Swaim is quoted as having a monopoly on the votes for one of the candidates!

Fair enough!
Vote for Margaret Baker!
Beat Jackson!

Mrs. Lon Nall is confined to her home this week on account of illness. Mrs. Murray Phillips of New Madrid will be the dinner guest of her parents, Mr. and Mrs. C. D. Matthews Thursday.

The T. E. L. Class of the Baptist Church had its regular meeting last Monday night at the home of Mrs. J. R. Harper, with fifty-six present. Each one revealed his "peanut friend", then refreshments were served at a late hour.

R. Everett Knight, of St. Louis, traveling for the Brooks Oil Company, visited The Standard force for a while Wednesday. Mr. Knight will be remembered by many friends in Sikeston and in order that he might keep up with his friends, he subscribed for the paper for a year.

MO. PAC. BEGINS WORK ON CAPE GIRARDEAU SPUR

St. Louis, November 8.—Contractors will start today on the work of building the Missouri Pacific Lines into Cape Girardeau, L. W. Baldwin, president of that railroad, announced today. Permission for the Missouri Pacific to enter Cape Girardeau was granted by the Interstate Commerce Commission last week.

A total of 5.8 miles of new railroad will be constructed out of Illmo, to connect with the old Cape Girardeau and Northern at a point just south of Cape Girardeau. The Cape Girardeau and Northern into and through Cape Girardeau, including the yard and freight facilities, will be rehabilitated as a part of the Missouri Pacific.

The work, which will cost approximately \$500,000, is expected to be completed early next year, and the new line will be operated as a part of the Illinois Division of the Missouri Pacific.

Mrs. Laura Slack, who has been spending the last few months in Tampa, Fla., returned Thursday.

Mr. and Mrs. C. D. Matthews, Jr. will be in St. Louis and Jefferson City the latter part of this week.

Mrs. Eula Bowman Shanks arrived Monday from Colorado to spend the winter with her parents, Mr. and Mrs. W. C. Bowman.

TENTH ARMISTICE DAY PROCLAMATION

President Coolidge—"Whereas, November 11, 1918, marked the cessation of the most destructive, sanguinary and far-reaching war in human annals, and

"Whereas, it is fitting that the recurring anniversary of this day should be commemorated with thanksgiving and prayer, and by exercises designated to further the cause of permanent peace through the maintenance of god will and friendly relations between nations; and

"Whereas, by concurrent resolutions of the Senate and the House of Representatives, in 1926, the President was requested to issue a proclamation for the observance of Armistice Day:

"Now, therefore, I, Calvin Coolidge, President of the United States of America, in pursuance of the said concurrent resolution, do hereby order that the flag of the United States be displayed on all Government buildings on November 11, 1928, and do invite the people of the United States to observe that day in schools and churches, and other suitable places, with appropriate ceremonies, giving expression to our gratitude for peace and the hope and desire that our friendly relations with other people may continue."

One of the fitting ways in which the citizens of this community may celebrate Armistice Day will be to attend the dedication ceremonies of Legion Square at 3:00 p. m., Sunday.

AS I SEE IT By I'm About Town

Now perhaps we again indulge in the almost forgotten art of publishing a newspaper.

And incidentally get a normal night's rest once in awhile, and occasionally listen to a sermon in church instead of political propaganda.

If the famous year of 1896 was any more hotly contested than the present year it was some year. At that politics and ballyhoo haven't changed so very much even if methods of "putting it across" have.

It would be interesting to know what price our nation pays for this four-year expression of sentiment. To some eight millions of dollars of actual campaign funds, we must add the extra expense of actually balloting, the cost of millions of columns of type and the extra tons of news print, and tanks of printers' ink, not to mention the economic waste of thousands of "workers" in the campaign—and one might add, the waste resulting from not using some 16,000,000 Literary Digest straw vote blanks—if the latter was accurate.

That was originally intended for a serious paragraph.

Among other things we can now turn our attention to pumpkin pie and whipped cream, red checked apples and (peaches), ginger snaps and hard, semi-hard and W. C. T. U. cider.

Dave Blanton, we understand, is being sued. Dave works for Wolffs in Columbia, a gent's furnishing store de luxe, and David, poor boy, sold a man a pair of cotton pants, and now the brute charges he was bitten by a boll weevil.

Mrs. Tom Allen was a visitor to Cape Girardeau, Wednesday.

Mr. and Mrs. C. D. Matthews III. will spend the week-end with the latter's parents in Arlington, Ky.

Mrs. Mesdames Earl Johnson, E. T. Wheatley and Chris Francis will entertain with a bridge luncheon Friday at the Hotel Marshall.

Mrs. W. O. Scott gave the T. E. L. Class of the Baptist Church, a Hal-lowe'en party. A large crowd enjoyed going through the fun house, and then to a gypsy camp, where all had their fortunes told. After the Indian house refreshments at the T. E. L. stand were served. Everyone reported a splendid evening of entertainment.

Taking a drive last Sunday afternoon we briefly visited Sikeston and had the pleasure of meeting our friend, Editor Blanton of The Standard, who recently recovered from a critical illness of pneumonia. He looks well, but is still weak. On the drive we noticed some splendid fields of wheat, but the rains had halted cotton picking. Much of it had not yet opened.—Jackson Post.

COMMITTEES NAMED AT LEGION MEETING

Earl Johnson, Commander of the local Legion Post for the ensuing year, appointed regular standing committees for the organization at the regular monthly meeting held in the Chamber of Commerce rooms Wednesday evening.

The following committees were appointed:

Membership: Chairman, Loomis F. Mayfield; members, Dr. W. A. Anthony, H. C. Henry, Gus Martin and Tom Roberts. Legal Committee: H. C. Blanton, Chairman; Members: Comrades, Haynes and Bailey. Finance Committee, Chairman W. L. Hutters, members, C. L. Malone, H. C. Blanton. Dance Committee, Chairman, Robley Lennox; Capt. E. T. Wheatley, Ira Shuffit, Paul Anderson and Herb Walton. The Post agreed to devote the proceeds of one dance to repay individual members of the Legion Drum and Bugle Corps for payment made on instruments.

Park or Legion Square Committee, Chairman Capt. E. T. Wheatley; T. A. Slack and Dr. C. W. Limbaugh. Athletic Committee: Chairman C. L. Malone; Howard Morrison and Art Sensenbaugh.

Drum and Bugle Corps activities were left to that organization with regard to attending the Cairo Armistice Day Celebration November 12.

The Post heard a report of the auditing committee, and a report on Legion Square progress. Capt. Wheatley reported to the organization that three civic and fraternal organizations had now agreed to sponsor flower beds for the Square. They are, the Legion Auxiliary, the Woman's Club and the local Boy Scouts.

Stark Bros., at Louisiana, Mo., have agreed to furnish landscape plans and some shrubs. A vote of thanks was extended to the Missouri Pacific railroad for its interest and aid in making the park possible. W. W. Hinchey and Mr. Thomas, both of Salcedo, were invited to attend the dedication services Sunday afternoon, and received a vote of thanks from the Post for the flag pole.

After a discussion of membership for the coming year, and following a discussion of a new home for the organization, it was agreed to again repeat the scholarship and athletic award in the High School citizenship competition as was done last year. More complete information on that subject will be released later.

DEDICATION CEREMONIES FOR LEGION SQUARE

Music by Henry Meldrum Post No. 114, Drum and Bugle Corps.
Attention, sounded by Chief Bugler Clarence Cummins.

Introductory Remarks, Post Commander Earl Johnson.

Invocation, Post Chaplain. Father T. K. Woods.

Missouri Pacific Railway Attitude, Supt. C. C. Chapman.

Turning on the Water in the Drinking Fountain.

Unveiling the Bronze Tablet, Mrs. Lillian Miller.

Flag Raising, Boy Scouts of Troops 1 and 3.

To the Color, sounded by Buglers Clarence Cummins and Paul Slinkard.

Presentation of Legion Square to the Community, Past Commander H. C. Blanton.

Acceptance on Behalf of the City of Sikeston, Mayor Ed Fuchs.

The Legion and the Community, Department Vice Commander J. W. Hammonds of Cape Girardeau.

Armistice Day Address, Hon. Ralph Bailey.

Benediction.

Music by Post Drum and Bugle Corps.

FIRST PRESBYTERIAN CHURCH

9:30—Sunday school.

11:00—Morning worship. Sermon by the pastor. The sermon subject for this hour will be "The Planted Man". This is the fourth of a series of sermons on the First Psalm.

6:30—The Young People will meet in the auditorium of the church.

The public is cordially invited to attend any or all of the services.

William Schone, Minister.

Let your ticket mean 10 votes for the Junior Football Queen Candidate.

Mrs. Loomis Mayfield entertained with a bridge luncheon Thursday afternoon.

The U. D. C. will hold its next regular meeting at the home of Mrs. C. T. Old Thursday, November 15, instead of at the home of Mrs. Charles Lindley as announced heretofore.

And the next day it threatened to snow.

Therefore, notwithstanding, we are still a Democrat—damn still!

We Democrats now know how Old Lazarus must have felt when he was licked by the dogs!

In speaking of buying votes by certain parties of this town, an election judge held up his right hand and said: "So help me God, three negroes voted and turned to those present with 'don't we get paid off here?'"

Arnica used to be used freely for bruises and for hurt feelings whiskey was taken in copious doses. To those who were bruised or hurt in the election results we can only recommend belly wash and it takes a heap to deaden one's feelings.

Just as soon as conditions get back to normalcy and our nerves settled, guess the only subject safe to write on will be the Uplift on the Farm. It will be but a few short months now until Hoover will call the extra session, if conditions warrant, and bring together the greatest farm minds and tell the farmer to stay in his fields more and longer hours, stay out of his car and out of town, produce more truck, milk and meat for his own table and less hell in public. There will be no use to tell him to buy less on credit for he has had no credit since the sheriff arrived. We will try to keep the public informed as to what is best for him according to instruction from Washington.

The protracted meeting to begin at the Methodist Church in a few days is certainly timely. The evangelist should first reconvert the parson holding the pulpit for his political backsliding, then reconvert Editor Denman for his desecration of the church with his political wisdom, then work on a goodly number of the members for intolerance, which is the worst of all their sins. It will be absolutely necessary for reconversions in their own temple before we outsiders will ever have the same feeling for Protestantism as heretofore.

The Standard has never been anything but Democratic and was for Smith and Robinson as strong as mustard. At the same time, it seemed an impossible task to beat the combination of Intolerance, the W. C. T. U., the Anti-Saloon League, the Ku Klux Klan and the Political Preachers of the land in our own party, in addition to the Republican hord that has always been regular. We are not complaining for we did our best, and are more than proud of the wonderful campaign of our leaders who left nothing undone in an earnest effort to serve the people.

We notice where health authorities in the East are giving special attention to oyster beds. Now if they will look after the oyster heads they will be performing another good deed.

If we had the regulation of the radio stations, we would place jail sentences on all black guards who use rough and unseemly language over the air. Old Henderson, from Shreveport, La., is a disgrace and should be forever forbidden to broadcast unless his talks are censored.

If there was a smile on the face of any Democrat, Wednesday morning, it was forced, frozen or a contortion. It was not a smile that wouldn't come off. Though they ought to be used to these political presidential disappointments by this time. Let's take a drink of water and try to look pleasant.

Successful candidates and their friends should have the utmost consideration for their late opponents who have lost their time and spent their money making the campaign. If anyone wishes to do any crowing, crow over the editor whose hide is as tough as that of an elephant.

There is much rejoicing in progress this morning (Wednesday), and much in the nature of consolation parties. But there are several long view problems which yet remain to be solved, and people have expressed a desire for the Republican administration to solve them. We have yet to decide the tariff question on farm products. Is the farmer to continue to pay protection prices for finished products and sell his goods on an open, or practically so, market? Nine-tenths of the Nation's wealth is in the hands of one-tenth of the population. Does that bode for good or evil? Are the same enforcement measures of prohibition to be continued or are they to be strengthened or modified? There will be those who will say "calamity howler" at what is to follow, but such is not our intention. There is prolific food for reflection in the present situation. Things seem on the surface to be prosperous, and the Nation has expressed confidence in continued "prosperity". But there is the situation, power, wealth and influence, the latter in the organized press, is becoming constantly more and more concentrated in one group, and that group is in control. Recorded history for some 3000 years bears out the fact that when power, wealth and influence becomes unduly concentrated, it is time to call a halt. We may have some formula, some means of correcting conditions before it is too late. We must wait and see.

Well, anyway, we saved "Chicky" Jewel by a handsome majority!

And again, the postoffice will continue to run with the same efficiency for four years. There is a lot of consolation in a dose of oil, they say. It answers the purpose.

Harry Lampert has the right system. He says the Kluxers were against the Catholics, the Jews and the Negroes, and he now expects to join the Kluxers himself just as soon as they reorganize and take in new members.

The Also Rans can now seek employment in some other line. We hope they will all be the same good fellows as when making the race. The disappointment is great, but if a clean race has been made, the loser will be respected and consideration shown him.

This campaign just closed finds the editor without an apology for any political paragraph printed, as we feel there was none that could offend anyone. At the same time, we tried to print an outstanding Democratic paper and be of real service to our party.

Wonder what became of the Tide of Republican Indignation among the Western farmers? Instead of rolling up their thousands for Smith, the friend of the farmer, they seem to have wanted four years more of Coolidge prosperity. Well, anyway, here's hoping Hoover will devise a way to fill all our bellies when we are hungry.

Make hot cheese toast for winter suppers sometimes. For 12 to 14 slices, you will need 1 pound of medium sharv American cheese, ½ pint rich milk or cream, 2 eggs, 4 drops of tabasco sauce, ½ teaspoon salt, 1½ teaspoons baking powder, and 2 tablespoons of flour mixed with an equal amount of water. Flake the cheese with a fork. Heat the milk in a double boiler, thicken it with the flour and water mixture, and cook for 5 minutes. Add the beaten eggs, the cheese and the salt. Cook very slowly until the cheese has melted and the mixture is thick and creamy. Allow it to cool and add the baking powder. Spread on the untoasted side of bread that is browned on one side only. Put the mixture on evenly to the very edges, otherwise they will be too hard and brown. Brown the cheese toast delicately under a low gas flame or in the oven. If desired lay a strip of crisp bacon across each slice of cheese toast. Serve immediately.

SCHORLE BROTHERS NOW PRODUCE TWIN LOAVES

In the memories of many of us, mother was the official baker for the family—that is, baking was just one of the many other duties of mothers of not so many years ago. If she decided to bake rolls, well and good; if it so happened that she baked single loaves, again well and good, and double loaves, also, went just as well with the family—and were no more trouble for mother than single loaves. But in time, commercial bakers supplanted this former duty, and with the coming of commercial baking companies there came also a desire on their part to give the families who were supplied with their products, just what these families wanted.

For almost twenty-five years Schorle Brothers have supplied baking wants to people in this community, and for many years this company baked a long single loaf; but recently public favor declared for a "twin loaf"—and immediately Schorle Bros. made the necessary change.

In former days, it was little trouble, if any, for mother to give the family a change once in awhile from single to double or double to single, but not so with this company. Among other things, this seemingly insignificant change called for the purchase of three or four hundred "moulds" or double bread pans. It meant sending an expert from the factory to make changes on an automatic mechanical bread wrapper, and most important of all, it means a change in the routine of the bake shop proper. Double pans take up more room in the oven, consequently less bread can be baked at one time, and so the whole back shop system had to be changed. The new twin loaves went on sale some weeks ago, but the shop has only recently "hit its former stride" in volume of bread produced, according to the Schorle brothers.

1928 ILLINOIS CORN CROP EQUALS ANY OF 17 YEARS

Pana, Ill., November 6.—A. E. Staley, head of the Staley Manufacturing Co., Decatur, the largest starch manufacturing concern in the Middle West, in an interview here today said that the Illinois 1928 corn crop excels in quality any corn that hsi firm has purchased in the 17 years that they have been in business.

Staley said his company had purchased 2,000,000 bushels and a car load received yesterday from Foosland weighed 57 pounds to the bushel. One year ago, at this time, the best weight of corn sent to the company was 47 pounds to the bushel.

Half of the corn this year will grade four or better, and the other half five and six. Moisture content is running 18 to 20 per cent. An early planting and good growing season or responsible for the splendid showing that Illinois corn is making.

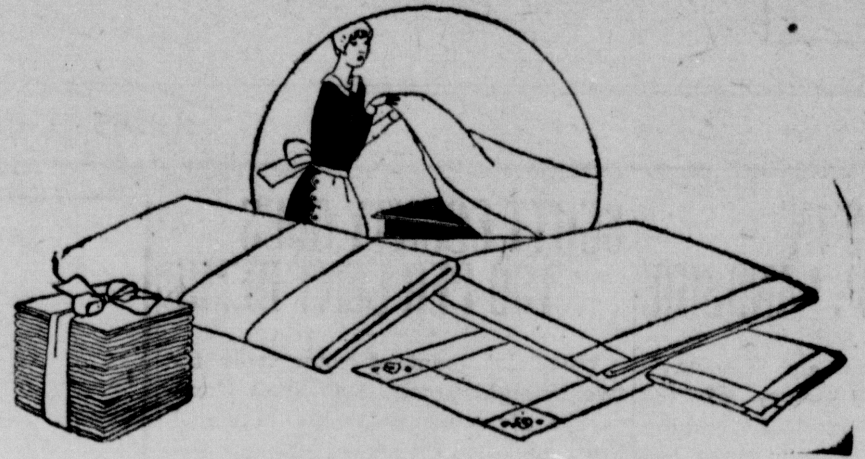

Fifty car loads of corn a day are arriving at the Staley elevator.

STATE GAME KEEPER BUYS 500 BRONZE TURKEYS

Hollister, Mo., November 6.—Five hundred bronze turkey hens have been purchased in this vicinity by Chief Game Keeper Claude Hunt, Missouri Game and Fish Department, and will be concentrated here for distribution to State parks and refuges prepared to propagate fine birds and already provided with native wild gobblers.

Hunt reports an abundance of turkeys in Southern Taney and Stone Counties, especially of the wild variety. Flocks are reported from every section. This is due to a spirit of cooperation among country folks, who are finding it most profitable to save the fowls for outside sportsmen, who pay liberally for guides able to locate the flock. Old-time hunters, who used to fill their larders with young turkeys weeks before the open season, have become guides and are zealously guarding the native birds that are prospering on the heavy mast and abundant grasshopper and devils-darning-needle.

LaPlata—Northeast Missouri system owned by Citizens Public Service Company will extend service from here.

Displaying Beautiful New Linens

What a wonderful showing of new linens just in time for Thanksgiving needs. To make the display even more attractive, we have provided a welcome share of special bargains in grades most in demand.

Smart New Styles of SWEATERS

Exploiting the smartest of the new mid-winter styles in sweater coats. Here in ample time so that you may choose for gift giving as well as selecting the garments you may wish for your personal use.

For Sleepy Time

When it comes sleepy time for the kiddies, you should have some of these cunningly designed garments for them to wear. Made from warm materials, they'll be comfortable even though they may kick the clothes off during the night.

SHIRTS for Outdoors Work or Play

If you expect to be outdoors this winter, working or playing, you should have at least one of these shirts. Several materials and styles from which to choose.

E. P. BLANTON BUYS PARTNER'S INTEREST IN PAPER

Paris, Mo., November 2.—Under the terms of an agreement reached last Thursday night, Ernest Jewett's one-third interest in the Shelby Democrat will pass to Edgar P. Blanton, owner of the other two-thirds, on January 1. Mr. Jewett will remain in Shelby, where he has been a prominent and useful citizen for so many years.

The addition of dry skim milk to bread dough furnishes additional nutrients and improves the flavor of the bread, and although it costs more to make bread with dry milk, the added cost is just about balanced by the increase in yield per barrel of flour, according to dairy specialists of the U. S. Department of Agriculture. Dry milk from skim milk heated to 95 degrees C., when added to bread-dough mixes, produces increases up to 10 per cent in the volumes of the loaves.

GONE, BUT NOT FORGOTTEN!

JACKSON PLAYS HERE
FRIDAY—TO ELECT QUEEN

A rousing pep meeting, a parade through town Thursday night on the eve of the Indian-Bulldog game, and a football queen, election previous to the game, is calculated to drum up interest in the game Friday. The Indians come here with a clean slate thus far this season, and Coach Whitmer has a team more or less crippled, with Swaim, Fox, Sutton, Albright,

Fitzgerald and Aufdenburg either on the hospital list or ineligible. Swaim, Sutton, Albright, Watson and Aufdenburg will probably see action Friday.

The queen election will be held during or after the game. Each ticket to the game entitles the holder to ten votes for his candidate. The queen candidates from the various classes follow: Freshman Jeannette Baker, Sophomore, Ruth E. Felker; Junior, Josephine Hudson and Senior, Margaret Baker.

Home Furnishings—Undertaking

Our 31st Year in Charleston

Four or five Moore's Air Tight Heaters, all have been used but have been put in good shape, are for sale at low figures. Pay for them by week or month.

Farmers wives who have a lot of cooking to do and want the best range on the market should see the new Monarch. We have a "farm plan" of easy payments which allows one year in which to pay the bill.

Some excellent values in 9x12 Axminster rugs came in Friday and they are already selling. We take a good deal of pride in the values of our floor covering department.

Sellers Kitchen Cabinets are better and better. The new ones in green and grey are the best put out by the Sellers Company. By proper care in choosing kitchen furniture you may have just as pretty combination of color in that room as in any other.

Why not fix up comfortably for the winter by installing a Fairy Inner Spring Mattress? One can scarcely imagine the difference between one of these and the old style regular felt mattress. Try one out at our risk. No comfort, no pay.

Moore's Enamel Ranges take up but little room but My, My, how well they do bake and on such a little bit of fuel, too. If you ever use a Moore's the chances are you will never want to change to another. Moore's ranges are old-fashioned cast iron, the best that money can buy, through and through and it is hard to find a better material for cook stoves.

We have a number of fine player pianos that have been but slightly used which we are offering at extremely low prices. Anyone who has a good Edison or Brunswick phonograph can get a good trade out of us for one of them.

If you voted for a winner you can afford to be charitable. If your man lost, carrying a grouch around for a month or two will not help any. Honest of purpose in casting votes must be conceded to both sides and the quicker we all forget bitter campaign utterances, the better.

Scott County gave us a number of nice orders last week and we're naturally looking for more business from the same source. Remember our delivery truck can run 35 miles an hour if necessary in a hurry up delivery. That means prompt service to any point in Scott or New Madrid Counties.

RED CROSS DRIVE
OPENS HERE SUNDAY

With some 20 city groups, civic organizations and ministers starting the annual Red Cross membership drive here Sunday, November 11, Chairman E. C. Matthews hopes to drive over the top of the County quota of 700 in one day. Every minister in the city will make mention of the coming drive Sunday, and various groups will make an active drive for funds Monday morning.

"The Red Cross organization never waits and never questions", said Mr. Matthews. "It stands ready to administer relief whenever necessary. For instance", he added, "in the New Madrid flood district. Bill Sikes and I heard about the Dorena levee break and were there at 5 o'clock. At six o'clock I received word at home, from Mayor Fuchs, that Sikeston was to be made a refugee camp. He suggested getting the Fair Grounds for that purpose. After that was accomplished, about 7 o'clock, Miss Catherine Greenough introduced herself to Chairman Matthews as director of Red Cross work in this area, and notified me that tents, bedding and camp supplies were even then on the track. That same night some 300 refugees were housed and the next morning were fed by 10 o'clock. About two hundred more were cared for the day following".

If the County quota of 700 is reached, said Mr. Matthews, Sikeston will have to reach a membership of 500 or better, because some of the smaller towns and Chaffee will not bring up the balance unless this city does reach that figure.

TOM SCOTT APPOINTED
SHERIFF BY COURT THURS.

The Scott County Court in session Thursday morning appointed Tom Scott (Democrat) to fill the unexpired term of office of E. A. Dye, whose resignation went into effect November 1, so that he might be eligible to run for Treasurer.

H. J. Welsh, who automatically stepped into the office of Sheriff following the resignation of Dye, will continue as Coroner until the recently elected officer, George R. Dempster, takes office.

NEW SCHOOL LAW WOULD
BENEFIT THIS DISTRICT

Canalou, November 9.—A new school law is now in the making which will, if passed, be the greatest boon to the schools of Missouri of any school law that the State has ever produced.

It will be especially a Godsend to such districts as Canalou, which need help from outside sources.

School men of the State have been working on the bill for some time and expect to have the details completed by the time the legislature meets this winter.

Under the present law, schools are required to vote a levy of \$1.00 on the hundred valuation before they are guaranteed \$50 per child in average daily attendance.

Under the proposed law, a levy of only 65 cents will be required in order to receive the benefits of a \$60 guarantee per child.

Under the new law, this guarantee will also apply to all high school districts, whether consolidated or not. It will also provide more revenue for rural schools.

Under the new law, Canalou will be able to carry on a better school on 65 cents than we now have on \$1. In other words, your taxes will be cut 35 cents.

Where will the State get this extra money? The plan is to get it by means of corporation franchise taxes, income taxes, etc.

A letter just received from the Committee on Legislation states that the town schools of New Madrid County would receive the following State aid under the new law:

Canalou, \$6,380; Gideon, \$17,329; Lilbourn, \$14,063; Marston, \$4,348; Matthews, \$5,837; Morhouse, \$14,365; New Madrid, \$12,661; Parma, \$10,339; Portageville, \$13,001; Kewanee, \$8,669; Risco, \$3,505; Conran, \$5,756.

However, they have used data of 1926-27 in making these estimates, which fails to take into consideration the fact that our valuation was cut 20 per cent last year.

Allowing for this, Canalou would receive \$8263 State aid next year if the new law is passed—and our school taxes would be cut from \$1 to 65c.

LaPlata—Wayne N. Shinn Hatcheries of Greentop establishes branch hatchery here to double capacity.

Over half the story of a good feeder is told in his head and face. A well-bred, choice feeder has a broad forehead, bright clear eyes, short, broad nose, full nostrils, and square jaw. This type of animal is most likely to consume high-priced concentrates at a profit and maintain his quality and beef-type conformation while fattening.

DEFEAT PAVING ON
N. KINGSHIGHWAY

A last minute effort on the part of property owners along North Kingshighway following the regular monthly meeting of the City Council Monday night, resulted in a petition carrying 21 signers, and enough frontage to defeat the measure. Rube C. Matthews brought the paper to the home of P. H. Stevenson late Monday night. It was the last day allowed by law for filing a remonstrance.

Allowance of bills and regular routine business was in order at the Monday night meeting. The Council again met Wednesday night to consider North Kingshighway. After discussing the matter at some length, it was referred to J. F. Cox, Chairman of the Street and Alley Committee. Mr. Cox was instructed to get in touch with experts of the Standard Oil Company, and to report to the Council the findings of these men.

Efforts will be made to repair the street under a local ordinance which allows the expenditure of 60 cents per front foot per year, action being dependent upon the findings of the street and alley committee.

WOMAN'S CLUB HOLDS
IMPORTANT MEETING TUES.

At the meeting of the Woman's Club Tuesday afternoon at the home of Mrs. C. D. Matthews, Jr., the Club accepted the invitation of the American Legion to attend Armistice Day Celebration planned for Sunday, November 11.

It will be held at the new Legion Square and will be a celebration of the acquisition of the Square as well as the signing of the armistice.

The Club heard a glowing report of the Ninth District Convention given by Mrs. H. A. Trowbridge. Short impressions were also given by Mrs. C. C. White and Mrs. L. R. Burns.

The matter of Red Cross donations was discussed by the members, each one signifying her desire and intention of answering the next Roll Call to be held soon.

The Ways and Means Committee under the leadership of Mrs. Paul Anderson made a very gratifying report of the cake and candy sale held last Saturday.

The program was in charge of Mrs. C. A. Cook and consisted of the following:

Concert Etude (Liszt)—Mrs. T. B. Allen.
Elsa's Dream (Lohengrin)—Mrs. Paul Fink.
Group of original poems—Mrs. M. M. Beck.
Etude de Concert (Oancla)—Miss Helen Welsh.
Adirondack Sketches (Lane)—Mrs. C. D. Matthews III.

"Oh, teacher! Mary said a bad word! She said Rotterdam!"
"That's not a bad word."
"The hell it ain't."

THE EASIEST AND BEST
WAY OF KEEPING A
PREACHER FROM "CUSSING"

Rev. Wm. Schone, pastor of the First Presbyterian Church at Sikeston, who is holding a meeting at the old Apple Creek Church at Pocahontas, one of the oldest Presbyterian Churches in the State of Missouri, had the bad luck of having two punctures within a half an hour last Sunday afternoon. Some of the good people of Pocahontas who saw the preacher fixing those two casings, wondered if this was not enough to make any preacher cuss. When Mr. Schone went back home Sunday night he happened to pick up another six-penny nail, the third puncture in a day.

When the people at Pocahontas learned about the third puncture on the Sabbath Day, they did not know what would become of the preacher, and realizing that all the preachers are human, they decided that the best way of keeping him from "cussing" would be to give him a new set of tires. So Monday night just before the church service, after one of the residents of Pocahontas had "used" Mr. Schone's car and returned it to him, he found that he had four brand new casings on his Ford, which were very much appreciated.

As an aid in insuring even grazing by cattle raised on the range, the salting place should be changed from heavily grazed areas to areas that have been lightly grazed. Salting away from the water supply should be practiced to prevent overgrazing near watering places.

Why Not
Save
Money?

Whenever you see a car equipped with Goodyears, you recognize a car owner who has real ideas of sound economy.

Whether you want regular tires or Balloons, clincher or straight side medium priced or low priced—you can't beat our Goodyears.

RUSSELL-BRADLEY NOTES

The waffle supper given by the Russell-Bradley Missionary Society in the Missouri Utilities rooms Tuesday evening was a success. About \$30 was realized. Members of the Society wish to thank those who so kindly assisted them with donations and the Missouri Utilities for the use of their stove and power.

The Russell-Bradley Missionary Society will meet Friday evening with Mrs. Paul Anderson and all members are urged to attend.

It is well to wait at least two weeks after turning under a cover crop before planting the next crop, according to the U. S. Department of Agriculture. The rate of decomposition determines the time that should elapse between the turning under of a cover crop and the seeding of the next crop.

Wonder what R. E. Bailey thinks now! We tried to get him to stay in the race and fight to a finish. What a difference it would have made to the District.

Mr. Raskob seems not to have been a very good guesser according to the telegram printed in the last issue of The Standard, or was he predicting the States that Mr. Hoover would carry?

It would be strange indeed if The Standard did not peeve someone during the course of a political campaign, but this time few can be offended by paragraphs printed. Some members of the W. C. T. U. give evidences of offense because we announced a charge in the future of their meetings. They have money to pay Rowena Shaner and Nell Burger to preach over the State, send in money to headquarters, etc. There is nothing compulsory in placing notices in The Standard, so why complain?

It looks like the dadderned people intend to rule this country and it looks like they mean to rule it dry and protestant. Now, it is up to the people to see that the prohibition law is enforced. Heretofore they have been passive and more liquor has been dispensed than when licensed saloons were with us. No officer can break up this evil without the support of the communities in which it exists. It should now be the duty of the W. C. T. U., the Anti-Saloon League and the preachers, to force officers to do their duty. By force, we mean provide the evidence so the officers can make the case hold. Let's see how the new broom sweeps in this community.

And you, too, Texas!

The close organization of the Democrats of Scott County saved the ticket for the Democrats. H. C. Blanton, as chairman, left nothing unturned to get out the Democratic vote and stop any unlawful voting. Scott County will have but one Republican office holder the next two years and a supreme effort will be made to retire him at the end of his term, as he has been politically offensive to Democrats who elected him.

Of course we regret that our party ticket did not go through with a whoop, at the same time the gentlemen chosen to head the National and State Governments are above reproach as citizens and public officials. We get a little bit of consolation out of the election of Mr. Hoover because he was a piece of a Democrat eight years ago, and quite a bit of consolation out of Mr. Caulfield, the Governor-elect of Missouri because The Standard advised Republicans to vote for him in the primary as he topped the list. The Standard looks for no disgrace in Nation or State under these gentlemen and when we can't beat 'em, we'll get behind 'em.

THE ELECTION

Mr. Herbert C. Hoover has been elected President of the United States in an election of unprecedented participation by the whole people. The Post-Dispatch accordingly salutes him as the next chief executive of the republic. It made a hard fight for the Democratic candidate, Gov. Alfred E. Smith, but it accepts the judgment of the people. They have said in thunderous tones that they want the Republicans to govern the country, and they have emphatically affirmed the status quo. Prosperity is king. So long as the people ascribe the material well-being of the country to the Republican party no other issue can disturb their confidence. They are content with prohibition, and are disposed to attempt a change. They do not believe that the Government would be any more honest under the Democrats than it has been under the Republicans. Even the farmers, tho' loudly complaining, are Republicans still. In the minds of the people the issue was business. Whether a change in the Government would or would not be a material risk, they were unwilling to chance it.

In our opinion, the disqualifications

of Gov. Smith only contributed to the one-sidedness of the result. His religion broke the solid South, and it was no doubt a contributing factor to the decisiveness of his defeat in many of the States. Nevertheless, had he been a Protestant and a dry, he would not have suffered any better fate than did Mr. John W. Davis in 1924 or Gov. James M. Cox in 1920. The preponderance of the Republican party in the electoral college was never greater. Mr. Harding had 404 electoral votes. Mr. Coolidge had 882. Mr. Hoover tops both these figures with 444 electoral votes. He has carried approximately 40 of the 48 States. With him has gone into power a Republican Congress, as the national ticket has carried Republicans into office verywhere in the States. The victory will be quarreled over by the Anti-Saloon League, the religious intolerant and the industrial interests behind the Republican party. The last, in our judgment, will emerge from this dispute with the popular verdict. Mr. Hughes said during the campaign that there is but one issue before the country, that is prosperity, and he disbelieved that the people would recognize any other. They did not.

The people of Missouri have elected a good Governor in Judge Caulfield. His record is good. He is a public-spirited man. As City Counselor of St. Louis he became highly qualified to sit in judgment in the dispute between the State and the public utilities. That is a difficult field in which the Governor might easily be lost for want of understanding. Judge Caulfield understands it. It will be a grievous disappointment to the Post-Dispatch, and one that belies his own record, if he does not put Missouri in respect to the public utility problem abreast of those alert States which, like Massachusetts, are carrying the battle to the enemy. We congratulate Judge Caulfield, and assure him of our support for public causes.—Post-Dispatch.

YOU FISHERMEN MIGHT PIN THIS IN YOUR HAT

Many a fisherman who knows that anglerworms are an excellent bait does not know that to get the very best results from worms it is desirable that they should have gone through a process known as "scouring". W. R. Walton, of the United States Department of Agriculture, who has made a serious study of the earthworm in connection with the damage the worms sometimes do to lawns and golf greens, has also shown that the scouring of worms has been well known to some anglers for hundreds of years and was well described by Izaak Walton, patron saint of fishermen, in 1653. Scoured worms, this entomologist says, are much more desirable than those freshly dug. They will live longer on the hook and will take more fish.

Here is the method of scouring as described by Mr. Walton: Take a quantity of sphagnum moss such as is used by nurserymen in packing plants for shipment. Put this into a stoneware crock or tight wooden box. This moss, which grows in shady swampy woods, should be well moistened, but the excess water should be wrung out before the moss is placed in the container. The worms should be placed in the moss for at least two days, and preferably three or four, and kept in a cool place. At the end of this period they should be almost transparent, tough, and lively. In case it becomes necessary to keep them in the moss for some weeks a little sweet milk should be poured over them at intervals of about a week, but the moss should be washed and wrung out in clean water every week or ten days.

Horses—like people—appreciate a variety in their diet. It is a good plan to make slight changes in their feed occasionally.

MAKE CHANGES IN PHONE BILL DATES FOR SKESTON

Telephone patrons in this city have probably found a small slip enclosed with their regular monthly statement, saying that hereafter the bill will be dated the eleventh instead of the first as heretofore, and that toll charges will be included up to the date of the bill. Formerly such charges were billed up to the twenty-first only.

This change was brought about to relieve the congestion brought about by the peak of activity around the first of the month in the main offices in St. Louis, from which all local statements are mailed. Various cities and towns will receive their bills at intervals during the month, and Skeston's "pay off days" will hereafter fall on the eleventh instead of the first.

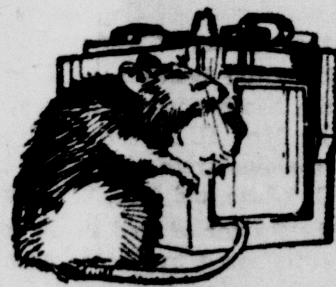

This new plan has already been placed in effect with all large companies in this area with the exception of the Bell Telephone Company, and by January 11, this company also will find its plan working smoothly as now planned. It is thought that this plan will meet with the approval of customers and company alike, because it will be a convenience for the customer to receive the complete charge for all tolls used to date instead of a partial amount, and it will enable the company to issue bills more economically, efficiently and accurately. The next bill for this vicinity will reach here about December 14 or 15 and will be dated December 11.

GENUINE WILLARD BATTERIES AND WILLARD SERVICE FOR ALL MAKES

QUAIL NOT INJURED BY STRYCHNINE-POISONED BAITS

Complaint is frequently made that quail and certain other game birds may be injured by the exposure of baits poisoned with strychnine, which are used in the control of injurious rodents and other mammals. Investigations made by members of the Biological Survey of the United States Department of Agriculture and other interested organizations have shown that such destruction is unlikely to occur. It has been definitely established that gallinaceous birds as a group possess a certain immunity from strychnine poison. This group of birds includes grouse, partridges, quail, ptarmigan, prairie hens, sage hens, pheasants, wild turkeys, and domestic poultry.

Quail in California have been observed to feed to a large extent on strychnine-poisoned baits exposed for ground squirrels, and, so far as known, not a single individual has been killed. Prairie chickens have been known to eat without ill effects enough poisoned grain to kill 100 ground squirrels. A sharp-tailed grouse in Montana ate 400 kernels of strychnine-poisoned wheat without any of the strychnine symptoms developing. Experiences such as these indicate that complaints regarding the destruction of gallinaceous game birds by strychnine-poisoned baits are

founded upon suspicion rather than upon facts.

FINISH REPAIR WORK ON KENNETT LEVEE

Kennett, November 6.—Work by the government on the repair of the break in the St. Francis River levee, northwest of Kennett, on D. D. No. 25, has been completed, according to J. W. Harned, resident engineer. W. I. Duty had the contract on the job,

and the work has been accepted by the chief inspector. All that remains to be done now is to sod the levee with bermuda, and this will be completed Saturday. In repairing the break, a loop 810 feet long was built and 10,200 yards of dirt was used in building it. The repairing of the other break north of Brown's Ferry will be completed this week.

NEW MADRID COUNTY FARM BUREAU NEWS

A meat canning demonstration was held Monday afternoon, October 29, at the home of Mrs. Cathy in Canolou. There were ten women present, all of whom were very much interested in the cold pack method of preserving meat. Mrs. Dow, Home Demonstration Agent, canned for them a quart of beef, a quart of pork, and a quart of chicken. This is a splendid way of taking care of surplus meat at butchering time and incidentally a very good way of having a fine dinner on short notice in the country. Mrs. Dow told the women how they could in this way save all of the scrap meat, meat from the backbones and ribs, without forcing the family to eat several times more meat at one time than they should. After the meat is taken from the bone, these same bones can be stewed and the broth from them cooked and cold packed, and in this way saved for future use in making soups, gravies, and the foundation for dumplings and noodles. At the close of the demonstration, one woman remarked that she was so glad to know how easily meat could be canned in this way as she had always imagined it to be a very hard and tedious task.

Mrs. Dow has plans made for a great many meat canning demonstrations for this winter in New Madrid and Mississippi Counties, but she also will have time to give a great many more, and it is hoped that any community wanting this information, will get in touch with Mrs. Dow right away.

The women of Canolou were taking a great interest in the extension work, having had a vegetable demonstration at Mrs. Cathy's in the summer as well as this meat demonstration, and according to the conversation Monday afternoon, everyone was delighted with the results of their summer's canning.

Ravenwood—Ravenwood Co-operative Creamery operating to capacity.

ST. FRANCIS FIGHT FOR FLOOD CONTROL TO BE TEST CASE

Information received by the Missourian is that flood control of the St. Francis River, in which a large portion of Southeast Missouri is vitally interested, will be made a "test" case in the fight of all the tributaries for inclusion in protection afforded territory along the Mississippi River under the federal flood control act passed by the last Congress. Upon the outcome of his fight for recognition is expected to hinge the fate of proposed control work along the Missouri, Illinois, Yazoo, Arkansas, White and Red Rivers.

Plans for presentation to Congress of the tributary areas' interests will be made at a meeting called by W. H. Dick, president of the Mississippi River Flood Control Association, to be held at Memphis, Tenn., Tuesday, November 13. At this meeting, which will be attended by possibly 20 Congressmen and 10 Senators, the St. Francis case will be discussed in detail and efforts made to work out an effective method of getting a favorable decision of the issue by Congress.

The St. Francis said by leaders of the control movement to be the best of any of the smaller streams for use as a test case. Its decision is expected to set a precedent which will result in the acceptance or rejection of all the other proposals to put the tributary streams under federal control.

It was explained that the restrictions in the flood control act require that the tributary areas must show there is a "national" phase to their problem before the federal government can lend its aid. This, in a minor way, is the barrier which for months delayed enactment of the bill for control of the main river during the last session of Congress. Mississippi Valley residents were required to prove that the river control was the problem of the nation, not the valley.

Expectations that a favorable decision of the St. Francis case may be

obtained from the next Congress have been voiced by Dick and other members of the flood control organization. During the past several months landowners of the St. Francis Valley have been closely organized and they are prepared for a hard struggle to gain recognition of what they regard as their rights.

The decision Congress makes of the tributary areas' light for federal protection is expected to mean thousands of dollars to landowners in the St. Francis Valley in Southeast Missouri. A large reduction in taxes as the result of the federal government assuming the burden now carried by the levee districts along the St. Francis is involved in the decision. This prospective reduction will have an effect on land values in Dunklin and lower Stoddard and Butler counties, it is anticipated.

At the Memphis meeting, at which levee boards which compose the national flood control organization and landowners in the affected areas will be represented, a number of problems relating to control work will be discussed. One of the discussions will deal with the Jadwin plan, adopted by the Flood Control Commission, which provided for a riverbank floodway from Birds Point to New Madrid, thru Mississippi County. Engineers will speak on the feasibility of the plan and may suggest to the association and the members of Congress attending changes they deem necessary in the plan.

Other subjects to be discussed will include further legislation for aid of the areas bordering the rivers, and interpretation of the 1928 flood control act. In connection with the latter subject landowners are expected to seek opinions as to what they may expect if the Jadwin floodway is employed.—Southeast Missourian.

Where moderate applications of manure are made to land at this time of year, it pays to add 40 or 50 pounds of superphosphate with each load. This may be put on the manure either in the stable or after it is loaded on the spreader.

Beef cattle purchased in the fall for grass-grain fattening should be "roughed" through the winter so as to gain from 50 to 75 pounds. Cattle handled in this way will generally make greater gains the following summer than cattle making larger gains in the winter.

ARE YOU SUPERSTITIOUS?

BY FRANK ELLIS, JR.

Miners

IT IS a fact that from the earliest times mines were supposed to have been guarded from intrusion by serpents and demons. It is thought that goblins are jealous of man's ability to find the hidden treasure in mines and they diffuse malevolent and poisonous influences to blast the lives and limbs of those that dare to attempt the discovery.

It is believed that there are six kinds of demons, "the fifth sort of which are subterranean, living in caverns and hollows of the earth, often killing and hurting well diggers and miners for metals, causing earthquakes and eruptions of flames, and strong winds." The existence of spirits in a metallic form would torment the workers in German mines and in some countries, by causing blindness.

giddiness or sudden sickness, often making it necessary to abandon mines known to be rich in metals. Thirteen miners were found dead together from such causes.

The belief was prevalent among miners of a species called "knockers." They were heard underground in or near the mines. And by their knocking pointed out to the workmen a rich vein of ore.

There is an imp called "Gothon" which causes the miners a great deal of trouble, deluding them with false lights, noises and flames. Another is the appearance of a demon in the form of a "black dog."

The demon feared most by the miners is the Knuff-kriegen. The miners are often knocked down by devils which they call Knuff-kriegen. After such falls the miners often die in the space of three and four days. (© 1928, Western Newspaper Union.)

(© 1928, Western Newspaper Union.)

"In a large part the insubordination of servants arises from the growing sense of unwillingness to be directed and governed by the individual."

"It is the spirit of the age which rebels against the dictates of the individual, but submits freely to the despotism of an organization."

SEASONABLE DISHES

As our seasons are so variable it is hard to determine when summer ends and fall begins. We usually have as uncomfortable hot days late in the season as any time during the summer.

It is not wise to retire all the summer dishes, for they may be much needed during the fall months. This year cucumbers seem to be especially good and abundant. Try putting up some in this simple way:

Cucumber and Celery Pickles.—Fill quart or two-quart glass jars with small sized cucumbers or if large cut them lengthwise into finger-sized pieces, arrange five to six stalks of celery and one or two small onions in each jar; when well filled with the vegetables fill with the boiling hot vinegar, using one quart of vinegar (if very acid dilute with water), one cupful of sugar and one-half cupful of salt. Seal the cans and put away for use in a week or two. Onions as well as cucumbers may be sliced, if too large to serve.

Here is a simple mustard pickle which is especially good for those who can add the cucumbers daily to the pickle. Use one gallon of vinegar, one-half cupful of mustard, one cupful of salt, two cupfuls of brown sugar. Mix cold and put into a large jar, adding a quart or two of small cucumbers as they grow. Cover with horseradish leaves and set away.

French Potato Salad.—Cut a large onion into slices and put to cook in a saucepan with two to three tablespoonfuls of butter. Cook until very soft. In another saucepan cook four medium sized potatoes cut into bits; while they are cooking add a little of the potato water occasionally to the onion to finish cooking until tender. Mash the potato, add the onion and one quart of good milk, season well with salt and pepper and serve very hot. This makes a nice supper dish for a cool night.

Nellie Maxwell

Flat River—Christian church here dedicated recently.

The size of the business of a farm is of the utmost importance in attaining a reasonably high standard of living, and there are many farms with a business too small for sufficiently large returns.

The late Abraham Isaacs, of Cincinnati, Ohio, left seven college professors among his 11 surviving children. They are located at Harvard University, the University of Rochester, the University of Michigan, Harvard Law School, Columbia University, the University of Pittsburgh and the University of Cincinnati.

Did you ever hear of a Mouse Farm? An English paper, according to The Animals' Friend, tells of one in Essex where on a single acre there are 50,000 raised for university and medical schools for cancer research work. One department is known as the Nursery, where 300 mice are born daily. How true that "the best-laid schemes" of these poor mice "gang aft a-gley".

Beautiful Actress

... Countless Admirers

—The secret of her blasted life told for the first time

"MAGDA, the saintly," her friends called her. For though this beautiful actress had countless admirers, she steadfastly refused to let the slightest suspicion of love or romance enter her life.

Then something happened. The treacherous tongue of scandal linked her name in an ugly way with that of a man of great social prominence.

For some strange reason Magda neither denied nor confirmed these rumors. The poison spread. One by one her friends deserted her. Even her youthful protégée, a young man in the cast whom she had encouraged and helped with all her strength, publicly denounced her as unfit for decent people to associate with. Had he known the truth he would have

cut out his tongue rather than breathe a word against her character.

Then Magda's play suddenly closed. Crushed and in despair, she sought out the man responsible for her wrecked reputation, and threatened to expose him—to tell the world the truth.

"I dare you to!" he snarled through evil lips. And Magda knew her fight had just begun.

Until now, the sensational truth about the venomous scandal which blasted her life has remained securely locked in Magda's aching, grief-torn heart. But now her story can be told. It is entitled "Beyond the Pale," and appears complete in December True Story Magazine.

Those who gripe and run away will
live to gripe another day.

And the worst of it is: No Balm
of Gilead in the way of spirits frum-
menti to deaden the pain!

We might add in wonder, how many
of our professed (politically) dry
friends celebrated the victory a la the
little brown jug—instead of a little
brown dreby.

One thing that most of us can feel
jubilant over is the splendid majority
given to Amendment No. 3 to issue
\$75,000,000 road bonds to complete
the present system and to link up
more closely the different communi-
ties with one another. The Standard
would like to see the cutoff from Mor-
ley to Oran, to Chaffee, to Dutchtown
and Jackson, built out of the first
available funds. It would save 14
miles from this section to St. Louis
and give those communities a much
needed outlet. Rah for the bond is-
sue.

Sikeston Standard, \$1.50 per year.

Just to give these four Southern
States, who voted for Hoover, what
they deserve, we would like to see Mr.
Hoover appoint negro postmasters in
all the cities and towns. To see the
equal rights bill forced on them and
to see their representation in Con-
gress cut to the limit the census calls
for. To see the Jim Crow law declared
unconstitutional, and in Texas the ne-
gro given the right to sit in white
churches and in white theaters in any
part of the houses that is open to the
public of any nationality. These
States have opened the door for the
old Force Bill and the Dyer Anti-
Lynching Bill by permitting the Re-
publicans to gain control of both
branches of Congress, the President
and the Supreme Court. Go just as
far as you like, you can't hurt me.

Miss Emily Blanton spent the last
week-end in Malden and Gordon Blan-
ton visited there also last week-end.

Miss Audrey Chaney will entertain
with bridge Friday evening com-
plimenting Mrs. Joe H. Allen of St. Joe.

Mesdames E. T. Wheatley, Chris
Francis and Earl Johnson were vis-
itors to Cape Girardeau, Wednesday.

The Co-Workers will meet at the
home of Mrs. E. J. Keith at 113 N.
Ranney Tuesday afternoon at 2:30
o'clock.

Mrs. Betha Kilgore left for St.
Petersburg, Fla., where she will visit
with her son, Fred and family, for
the winter.

Mesdames Betty Matthews, Jane
Mills, A. J. Moore and J. N. Chaney
were visitors to Cape Girardeau, on
Wednesday.

Paris, Mo.—This week-end marks
the end of the Mutual Telephone sys-
tem here. Connections have been
made with the Paris Bell exchange.
Some 32 additional lines are thus
added to the Bell system.

HONOR FRANK DENNY AFTER 30-YEAR ARMY RECORD

Master Sergeant Frank Denny, De-
tached Enlisted Men's List, who is on
duty as Sergeant Instructor with the
140th Infantry, was placed on the
retired list this week, after complet-
ing 30 years' service in the Army.

The General Order given below
will give an idea of his service dur-
ing that period.

The parade this afternoon will be
in honor of Master Sergeant Frank
Denny, D. E. M. L., who is due to
retire from the Army in November,
1928, after completing 30 years' ser-
vice.

Master Sergeant Denny first enlist-
ed on May 17, 1898 and served in the
Spanish American War in the 3rd
Kentucky Volunteers, and in the Phil-
ippines Insurrection in the 41st Volun-
teers. Later he served in the 6th,
18th, 13th, 15th and 26th regiments
of Infantry, in the grades of Private,
Corporal, Sergeant and 1st, Sergeant.
From July, 1917 until November 12,
1920, he served as 2nd Lt., and 1st
Lt., in the 53rd Infantry, then follow-
ed a detail at the South Dakota Agri-
culture College, and for the last six
and one-half years he has been on
the Detached Enlisted Men's list. Four
years of this has been spent with
the 140th Infantry.

Master Sergeant Denny has been
tireless in his efforts to be of assist-
ance to individuals and organizations
of this regiment, and while the 140th
Infantry, will regret to lose Master
Sergeant Denny, the best wishes of
the officers and men go to him as he
contemplates his well earned retire-
ment from active duty after service
in many lands with the armed forces
of the United States.

A. D. BELL WAYLAI AND ROBBED WED. NIGHT

A. D. Bell, truck boss for the
Swartzman Company of St. Louis,
was waylaid and robbed Wednesday
night about 7:30 o'clock. According
to his story told police here that
night, he had agreed to allow a Cairo
woman to ride with him to Dexter.
When his car reached the Brown Spur
detour on Highway 60, another car
blocked his passage, and he was at-
tacked with an iron bar and struck
with the butt of a pistol. He report-
ed the loss of about \$3 in cash and a
check for \$28. The woman, he said,
was picked up by his three assailants
who drove West on the highway. He
returned to Skeston, where his
wounds about the head and shoulder
were treated at the Hospital.

ROAD REPORT

The road report for this division re-
mains the same as last reported,
namely that all roads are in excellent
condition and that the weather con-
tinues cool and clear, with the fol-
lowing exception:

Route 25—Festus-Perryville-Ken-
nett-Arkansas State line—Bloomfield
to Dexter (Int. U. S. Route 60) 7 mil-
es. Under construction. Detour from
Bloomfield to Essex, 9 miles, over
county gravel road, good; thence to
Dexter, 6 miles, over U. S. Route 60,
gravel surface, good.

Well-cured seed corn will yield a
much better crop than seed originally
as good but injured through lack of
care. Good seed is often ruined be-
cause it is thought to be dry enough
when gathered and insufficient care
is taken to cure it.

AGREEMENT ON PRICE FOR PICKING COTTON

Caruthersville, November 5.—A
meeting of farmers and bankers of
Pemiscot County was held Friday
night at the court house here relative
to the proposed establishment of a
uniform price to be paid for cotton
picking in Pemiscot County.

The meeting was called by the
Pemiscot County Bankers' Associa-
tion, which includes all the banks and
trust companies in the county. More
than 100 farmers attended the meet-
ing, at which the cotton picking situ-
ation was discussed.

The bankers told the farmers that
if they continued paying \$1.50 and
\$1.75 per hundred for cotton picking,
that they would lose money on their
crop this year. It was stated that the
farmers would lose \$300,000 of their
legitimate profits if they continued to
pay the present price for cotton pick-
ing.

The question was discussed by the
farmers with advice from the bank-
ers, and the outcome of the meeting
was an agreement between the farm-
ers that they would pay a maximum
price of 20 per cent of the market
price of cotton for picking. At the
present price of six cents; this pro-
vide pay of \$1.20 a hundred for cot-
ton picking. All of the banks of this
county agreed to aid the farmers in
enforcing this agreement.

Notice was given by the bankers
that no money would be loaned next
year to those farmers who broke the
agreement and paid more than the
maximum of 20 per cent of the mar-
ket price of cotton for picking.

Barnes Greenway of Cottonwood
Point served as chairman of the
meeting, and he appointed 15 farm-
ers of the county as a committee to
enforce the agreement. Each mem-
ber of the committee is to appoint two
more farmers in his neighborhood to
help enforce the agreement.

The committee consists of W. M.
Collins, Judge McCulloch, C. O. Raine,
Harry Cunningham, J. W. Asher,
Jack Lynch, H. M. Hoffman, Dick
Wilson, Isaak McKay, L. B. Grishom,
Henry Cain, L. N. Sandage, J. W.
Gaither, E. E. Watson and Sherman
Rice.

HUMANS CONTRACT NEW ANIMAL DISEASE

Springfield, Ill., November 5.—
Warning against a new contagious
animal disease, undulant fever, which
"threatens to eclipse the problem of
bovine tuberculosis in magnitude",
was made today by Dr. Isaac D. Raw-
lings, director of the State Depart-
ment of Public Health.

Ten cases among humans have been
reported in Illinois since July, and
probably many more have occurred,
Dr. Rawlings said. The disease is
widely prevalent among cattle, goats
and swine, but only recently showed
any decided tendency to spread to
humans.

"Caused by a bacterial organism
undulant fever occurs in several
strains among lower animals", Dr.
Rawlings said, "the most virulent
and dangerous to man being the type
found in hogs. Many swine in Illi-
nois are already affected and it ap-
pears to be transferred from hogs to
milk cows and from cows to man
through the medium of raw or un-
pasteurized milk. There is some

danger also to persons on farms and
in slaughter houses who participate
in slaughter work. They may be in-
fected directly if they have open
wounds or broken skin to admit the
undulant fever germs.
"In cattle the disease causes
heavy economic loss. In man it at-
tacks young adults mostly and runs
a course that may be mistaken for
typhoid fever, tuberculosis or malaria.
It can always be positively identified
or ruled out by a laboratory exami-
nation of a specimen of fresh blood
from the patient, however, and this
ought always to be done. The State
diagnostic laboratory at Springfield
is prepared to make the tests without
local cost.
"In Indiana 29 human cases have
been definitely diagnosed by labora-
tory test during the last 15 months.
A larger number of cases have been
reported from Michigan.
"The disease is not very fatal in
humans, but it is likely to stretch out
over a considerable period and reduce
the patient to physical incapacity for
several months".

Many Thanks

I desire to extend to all the citizens of
Scott county my sincere thanks and ap-
preciation for the support and work ex-
tended in my behalf.

C. C. WHITE

Card of Appreciation

I take this method of thanking the people
of Scott county for their contribution of
votes and work in making my recent

CORRESPONDENCE FROM MATTHEWS

Last Friday night at about 9:00 o'clock, some tourists, going north, stopped in Matthews and told Constable W. H. Deane that a woman was lying in the Mile Road, apparently dead and that they were afraid to stop as there might be a holdup staged. Deane, with some other citizens, drove out the road leading to Highway 61, and found a woman in the road, but she was alive and nearly frozen. She told the officers that she and her husband were picked up at Blytheville, Ark., by a man in a car and promised a ride to Sikeston. When they got near Lilbourn, the owner of the car got some whiskey. They all drank a little. Her husband was put out at a filling station and the man drove on with the woman. He attacked her, near the place where she was found and threw her out of the car, where she was found in a most pitiful condition. She was taken to the Franklin Hotel and cared for until the next day. Her husband found his way here Saturday morning gave his name as Wright and said he had worked in Sikeston. The man who committed the terrible deed, is a citizen of Sikeston. We will withhold his name out of respect for the family. A warrant was sworn out for him and he was brought to Matthews and gave a \$500 bond.

Walter Fant, of the U. S. Navy, visited friends and relatives here several days last week.

Hallowe'en was well celebrated here. The Juniors entertained the Seniors and faculty with a masked party at the high school.

Clifford Reed has returned from a trip in the west.

G. F. Deane and daughter, Miss Frankie, shopped in Sikeston Saturday.

Mrs. J. Val Baker and Mrs. Denton of New Madrid were Matthews visitors last Tuesday.

Mrs. C. L. Yates motored up from Lilbourn Sunday to visit her mother, Mrs. R. H. Byrd.

Charles King and family of Golconda, Ill., visited here with his brother, J. R. King and family, last week.

The seventh and eighth grades gave a Hallowe'en party for their classes at the King Supply Co. hall.

Miss Flossie Reed entertained the Christian Endeavor Society with a masquerade party at her home Monday night.

Supt. Englehart and wife and Mrs. Fletcher Gregory of St. Louis were dinner guests of Mr. and Mrs. W. H. Deane, Sunday.

Mrs. Frank Sutton and little Clara Ellen left Saturday for St. Louis to visit with Mrs. Sutton's brother, Earl Dickman and family.

The football team of Matthews is playing good ball. They have lost but one game. Friday they played New Madrid with a 19-14 victory.

The young bloods of Matthews had a big party piling all kinds of machinery in front of stores and moving things around in general. But we are proud they didn't try to damage property.

All farm timbers used in contact with the ground should be of durable woods or of "sap" woods treated with creosote. This includes timbers used for foundation sills, stable floors, hog houses, gates, poles, and fence posts. For fence posts use only the more durable woods, such as black locust, red cedar, white or post oaks, chestnut, red mulberry and sassafras, or treat with creosote "sap" timbers such as soft maple, basswood, polar, gums, or sap pines.

LOCAL NEWS FROM BLODGETT VICINITY

Rev. Doss and family are moving here from Bertrand.

E. R. Putnam made a business trip to Memphis the past week.

Charles Stewrey of Chaffee was a business caller here, Monday.

Ben J. Gratz of St. Louis was a business visitor here this week.

Claude Noel and friends of Poplar Bluff visited friends here Sunday.

Miss Mabel Caughlin, who is teaching at Ilmo, spent the week-end with homefolks.

Stephen Peal, who is teaching at Commerce spent the week-end here with homefolks.

Mr. and Mrs. Bean entertained several friends at dinner last Wednesday evening.

Mr. and Mrs. W. H. Stubbs and Dr. Ogilvie had business at the county seat Thursday afternoon.

Mrs. Charles Stubbs and son of Blytheville, Ark., were here Saturday and Sunday looking after their property.

Robert Rister was thrown from a mule last Wednesday, breaking three ribs and his body was painfully bruised, but he is improving now.

Mr. and Mrs. O. B. Embry, who have been living in the parsonage for the past two years, have moved to the house vacated by Mrs. Charles Hale.

Blodgett won their fourth football game Friday, score 6 to 0. Bertrand was the losing team. They will play Vanduser Friday. Blodgett patrons are invited to come out and show the team you want them to win.

Miss Kate Austin of Sikeston was an out-of-town guest at the Hallowe'en party at the home of Mr. and Mrs. Ben F. Marshall, also Mr. and Mrs. B. Haven Sney of Chicago, who are visiting Mr. and Mrs. D. M. Jester.

Misses Mary Davis and Lorene Hamby entertained Friday evening at the home of Mrs. Harry Stubbs. Bridge was played at 3 tables. Mrs. Parker had high score for the ladies and Ross Lemons was leader of the men. A salad course was served.

The members of the Woman's Club entertained their husbands with a Hallowe'en party at the home of Mr. and Mrs. Ben F. Marshall last Wednesday evening. The house was beautifully decorated and after some very interesting contests, cards were played at seven tables. A plate lunch, Hallowe'en style, was served. The entire evening was enjoyed by all.

Give the hens a heavy feed of grain at night as cold weather comes on. It is a long time between their evening meal and breakfast.

Hogs affected with cholera are a constant menace to non-immune hogs. Do not bring susceptible hogs on to the farm as long as any sick hogs are around. It is best to wait three months after removing sick hogs, unless in the meantime the premises have been thoroughly cleaned and disinfected, says Dr. U. G. Houck, hog-cholera expert of the U. S. Department of Agriculture. Special care should be taken in cold weather, as infection persists longer in winter than in summer.

A number of vegetables are suitable for filling with stuffings of various ingredients. Eggplant, green peppers, large Spanish onions, cumin, tomatoes and cabbage are among those often served on this way. Usually the stuffing is made of other vegetables, ground meat, and some starchy material such as bread crumbs, or cooked rice, or spaghetti, to give body. A great many combinations are possible in stuffings and they offer an excellent way to use up small portions of leftovers. For stuffed onions, for instance, the following combination is particularly good—chopped celery, buttered bread crumbs, ground cooked ham, and a little leftover gravy or sauce to act as a binder. Most stuffed vegetables can be prepared early in the day and set aside until it is time to reheat them. For this reason, and because they are tasty and unusual, they are well adapted to "company" meals when one wants something a little out of the ordinary.

TRUSTEE'S SALE

Whereas, Lula B. Tally and L. C. Tally, her husband by their certain Deed of Trust dated September 22, 1927, and recorded in the office of the Recorder of Deeds for the County of Scott, State of Missouri in Book 56 at page 293, conveyed to the undersigned Trustee, the following described real estate, situated in the County of Scott and State of Missouri, to-wit:

One (1) acre of land, more or less, described as follows: Commencing at a rock the northwest corner of United States Private Survey Number Thirty-two (32), in Township twenty-six (26) North, of Range fourteen (14) East, of the Fifth Principal Meridian; thence in an easterly direction on the north line of said survey two hundred and nine (209) feet to a point; thence in a southerly direction parallel with the west line of said survey two hundred and nine (209) feet to a point; thence in an easterly direction parallel with the north line of said survey two hundred and nine (209) feet to a point; thence north on the west line of said survey two hundred and nine (209) feet to the point of beginning;

which conveyance was made to the undersigned in trust to secure the payment of a certain note in said deed specified; and

Whereas, the principal note and the interest thereon is now past due and remains unpaid;

Now, therefore, at the request of the legal holder of said note, and in pursuance of the conditions in said deed of trust, the undersigned Trustee will sell the property above described, at public vendue, to the highest bidder for cash, at the main or front door of the Court House at Benton, Missouri, in the County of Scott, on

Saturday, December 1st, 1928, between the hours of nine o'clock a. m. and five o'clock p. m., for the purpose of satisfying said indebtedness and the costs of executing this trust.

M. G. GRESHAM, Trustee.
Sikeston, Mo., Nov. 5, 28.
First Publication Nov. 9, 1928.

TRUSTEE'S SALE

Default having been made for more than six months in payment of dues and interest secured by note described in deed of trust executed by E. A. Bandy, and his wife, Mary Bandy, dated February Twentieth, Nineteen Hundred Twenty-five, and recorded on the Twenty-fifth Day of March, Nineteen Hundred Twenty-five, in office of Recorder of Deeds for Scott County, Missouri, at Benton, Missouri, in Book number 51, at Page number 43, conveying to undersigned the following described real estate and improvements thereon, in the County of Scott, State of Missouri, to-wit:

A tract of land situated in United States Private Survey No. 614, Township 26 North, Range 14 East, and lying entirely within the corporate limits of the City of Sikeston, Scott County, Missouri, bounded and described as follows: Beginning at a pump line on the South line of Kathleen Avenue, set Eighty-four (84) feet East of the Northwest corner of Lot number Two (2) of Out Block number Forty-two (42), and running thence East along the South line of said Kathleen Avenue a distance of Eighty (80) feet to a pump pipe; thence South along a line parallel to the West line of said Lot number Two (2) of Out Block number Forty-two (42) a distance of One Hundred Forty-six (146) feet to a pump pipe; thence West along a line parallel to the South line of Kathleen Avenue a distance of Eighty (80) feet to a pump pipe; thence North along a line parallel to the West line of said Lot number Two (2) of Out Block number Forty-two (42) a distance of One Hundred Forty-six (146) feet to the point of beginning, and all improvements on above described property.

Now in accordance with the terms and conditions of said note and deed of trust and the legal holder and owner of said note and deed of trust having declared the whole debt due as secured thereby, I will, at the request of said legal holder and owner, on

Wednesday, November 21st, 1928, between the hours of 9:00 A. M. and 5:00 P. M. of said day sell the above described property to the highest bidder for cash at the Front Door of the Post Office in the Town or City of Sikeston, Scott County, Missouri for the purpose of satisfying said debt and costs.

LEE B. EWING, (Trustee).
First Publication Nov. 2, '28.

Rolla—Construction of new Frisco station begins at this place.

TRUSTEE'S SALE

Default having been made for more than six months in payment of dues and interest secured by note described in deed of trust executed by Ella Shuppert and her husband, J. R. Shuppert, dated August Twentieth, Nineteen Hundred Twenty-seven and recorded on the Twenty-third Day of August, Nineteen Hundred Twenty-seven in Office of Recorder of Deeds for Scott County, Missouri, at Benton, Missouri, in Book number 51, at Page number 157, conveying to undersigned the following described real estate and improvements thereon, in the County of Scott, State of Missouri, to-wit:

All of Lot Number Nine (9) and all the South Half of Lot Number Ten (10) in Block Number Three (3) of High School Addition to the Town or City of Sikeston, Missouri, according to the recorded plat thereof, and all improvements thereon.

Now in accordance with the terms and conditions of said note and deed of trust and the legal holder and owner of said note and deed of trust having declared the whole debt due as secured thereby, I will, at the request of said legal holder and owner, on

Wednesday, November 21st, 1928, between the hours of 9:00 A. M. and 5:00 P. M. of said day sell the above described property to the highest bidder for cash at the Front Door of the Post Office in the Town or City of Sikeston, Scott County, Missouri, for the purpose of satisfying said debt and costs.

Real feed for your work animals

Here is feed for your horses and mules that will not only keep them in strong, vigorous condition, but will cut your feed costs over an ordinary hay and grain ration.

Gristo Work Feed is composed entirely of clean kiln-dried corn, oats, alfalfa meal, and molasses, scientifically prepared and perfectly balanced so that it is practically all feed value and no waste.

The alfalfa meal is cooling and laxative and the molasses makes it very palatable. Contains just the proper proportion of fiber to keep the digestive organs in a healthy state.

Your work animals will do better and you will save money by feeding Gristo. Prove this by trying it. We guarantee "Satisfaction or money refunded." Ask your feed dealer today for

GRISTO STOCK & POULTRY FEEDS

This is just one of a complete line of Gristo Stock and Poultry Feeds, each made to give stock and poultry raisers better results at less feed cost. You can get a Gristo Feed for work animals, hogs, steers, cows and poultry—all fully guaranteed—all put up in the five-point GRISTO Bag.

ALLEN SWAIM INJURED IN PLAYGROUND ACCIDENT

During the physical education period at the high school last Wednesday evening, Allen Swaim ran head-on into another student. Swaim was brought to the Emergency Hospital,

where Dr. Kendig took three stitches in a long wound over his right eye. Swaim went back to his studies little worse for his experience.

Let your ticket mean 10 votes for the Junior Football Queen Candidate. The Standard, \$1.50 per year.

IF YOUR VIEW BOTHERS—MOVE IT

Few housewives escape monotony of work in the home altogether. Given a good income, an average husband and provider most of them, it is said, make out fairly well with their respective choices. But even with a good home well furnished, there is a constant fear that someone may build a filling station on the corner, or erect a bill board to cut off the view. The point is that wives generally are able to manage every detail of location of their home except possibly the view—that remains fairly constant. That one problem of the many of keeping house does not bother two Skeston visitors, Messrs. Clarke C. Wright and J. L. Schaupp, who settle their problems of view from the parlor window or the back door either for that matter, by simple expedient of turning the crank at their "front porch".

These gentlemen own and operate, "keep house" in other words, in one of the most complete houses on wheels imaginable. Running water, gasoline stove, full sized bed and cot, clothes closet, kitchen cabinet, electric lights, toilet facilities, screened glass windows, phonograph and typewriter—these are a mere few of the modern conveniences of this Ford-propelled house on casters.

The auto house is unique in many respects. Running water comes from a 25-gallon air pressure tank located under the house, the full-sized bed swings up under the roof and directly over the steering wheel and out of the way when the truck is in motion. The kitchen cabinet, and clothes closet are built-in features along the sides.

Mr. Wright, designer and builder of his now-here-now-there home has incorporated a help-yourself-out-of-the-mud, if any, feature on this car. A piece of lumber extends over the sides of the truck just over the rear axle, and which is normally carried there out of the way. In case the truck mires down, a crank located in the front parlor operates a rope which drops this to the ground, and a bit of prodding with levers usually lifts the rear end of the truck out of trouble. "So far, though in three years of constant traveling," said Wright, "I have worn out three ropes showing people how it works, and I've only been called upon by necessity four times".

These two men, Wright and Schaupp are traveling in the interests of a new rubber auto enamel, called Steelcote, and the car panels graphically tell the tale, as do various other articles on and in the truck-home itself.

Their present plans call for an extended tour of the Southern States of the Union, and a journey into Old Mexico before heading back to Colorado. The two housekeepers with an amenable view drove into town late Tuesday evening, and parked on Front Street that night and the day following.

MO. PAC. CONSIDERS BUYING BUS LINES

Motor bus freight and passenger lines, comprising hundreds of miles in Arkansas and paralleling the Missouri Pacific lines in practically every section of the State, are proposed by the Missouri Pacific Transportation Company, of St. Louis, a subsidiary of the Missouri Pacific Railroad Company in application for 22 operating permits filed Monday with the Arkansas Railroad commission.

The system will afford a network of motor bus routes in Arkansas and will be the most extensive ever inaugurated in that State. Hearings on the applications will be held by the commission at Little Rock, December 12.

The twenty-two petitions filed Monday ask for permits to operate motor bus lines at practically the same freight rates and passenger fares as are now charged by railroads over routes from Moark, on the Missouri-Arkansas line, south through Little Rock to the Arkansas-Louisiana line and elsewhere.

The Missouri Pacific is also planning purchase of a network of bus lines in Missouri, it was learned yesterday. This includes the Scofield bus line.

In loving memory of our dear son and brother, Leslie M. Cope, who departed this life one year ago, November 6.

His smiling face and pleasant ways, are a pleasure to recall. He had a kindly word for each, and died beloved by all.

Some day we hope to meet him, some day we know not when. To clasp his hand in the better land, never to part again.

Sadly missed by Father, Mother and Brother.

Jackson—Eleven blocks paving will be laid here.

Let your ticket mean 10 votes for the Junior Football Queen Candidate.

STOCK SHOW TO DRAW HUGE CROWDS

The spotlight of the nation will be trained upon Chicago from December 1 to 8, when the International Live Stock Exposition will open its doors to farm and city folks and to the finest specimens of crops and live stock that the year 1928 has been able to produce.

Each day of this final and crowning event of the year's agricultural show season will be crowded with many and various activities that will keep visitors occupied every moment of their stay. As a curtain raiser, the non-collegiate judging contest is scheduled for the day prior to the official opening.

Saturday is young folks' day at the International, when the junior live stock feeding contests and the inter-collegiate judging contests will take place. Carloads of fat cattle will be judged, and the first of the Grain and Hay Show scoring begun.

Monday brings the judging program into full swing, with Walter Biggar of Dalbeattie, Scotland, tying the ribbons in the steer classes. Monday might be called "fat stock day", since the steers, wethers, barrows, and draft geldings are all listed to face the judges. Shires are scheduled for the horse ring on Monday afternoon, and the day will also usher in the opening of the Boys' and Girls' Club cativities, as well as the first of the week's regular night horse shows of the country's choicest specimens of light harness and saddle horses.

Tuesday opens the judging of the Angus, Hereford, Shorthorn and Red Polled breeds, and completes that of the fat cattle, with the awarding of the steer championships. The inter-collegiate meat-judging contest takes place on this day, as does the judging of Percheron and Belgian horses: Shropshire, Dorset and Southdown sheep; and Berkshire, Chester-White, and carload-lot hogs. The Milking Shorthorns will line up before the judges on Wednesday, and in their separate divisions of the show, the Hampshire, Lincoln, Cheviot and Rambouillet breeds of sheep, and the Duroc-Jersey and Hampshire breeds of swine will also compete for the top ribbons.

Mrs. Martinez de Hoz, an Argentinian, who comes to Chicago from South America specially to judge the Shorthorns, will compete his duties on Thursday, with the placing of the Polled Shorthorn breed Oxford and Cotswold sheep; Poland China and Tamworth hogs; Belgian and Clydesdale horses are also on Thursday's docket.

That picturesque and shaggy haired breed of Scotch cattil, the Gallo-way will occupy the judging ring on Friday, and Spotted Poland China and Yorkshire swine, Suffolk and Clydesdale horses will also be viewed on this day.

BLTHERVILLE CHEESE PLANT TO BEGIN OPERATIONS SOON

Blytheville, Ark., November 2.—This city will manufacture its first cheese within a few days, when the Blytheville Cheese Co.'s factory will begin daily operation. Having announced that 7500 pounds of milk can be used daily if this amount is available, plans are being made by farmers to purchase more cows.

More than 150 cows have been asked for by farmers through the Livestock Finance Corporation, and these will be resold to the individuals within the next 30 days. This corporation placed the first cows here a year ago and since that time has bought and resold several hundred cows. They are paid for on the weekly purchase plan.

The cream cheese will be made from pasteurized milk and will be sold under the brand, "Blytheville Cheese". If impossible to dispose of all the product in this locality it will be shipped to Northern markets. Officers of the company, which will soon be incorporated for \$6000 are: Frank C. Douglas, president; E. D. Ferguson, secretary and treasurer; C. H. Leuche, manager; B. A. Lynch, Joe Isaacs, Frank C. Douglas and A. G. Little, directors.

HELP PREVENT FARM FIRES!

Water where and when needed would prevent a large percentage of the fires in rural districts which last year caused the death of 3500 people and a property loss of \$150,000,000. Most fires are the same size at the beginning unless caused by an explosion and it is only those which are not brought under control immediately that cause this huge loss to life and property.

Few rural districts enjoy the safety and protection of a rural fire department, but many farms can provide an effective means of protection by means of a farm water supply system which can also be used every day in the year to provide a plentiful supply of running water in the farm home and buildings. hose connections at strategic points around farm buildings and yards will provide water for quenching fires before they gain a start. A fire well started is difficult to overcome even with regular fire fighting equipment.

Theft Ties Up Newspapers

A fairly satisfactory home storage pit for vegetables for use in sections where the weather is not extremely severe can be made by half burying a large wooden box in a well-drained and partially protected place in the open ground. The box should be lined with some kind of insulating material such as building paper and several inches of straw should be placed around it. Enough soil should be mounded over it to keep out frost and the top protected by a roof of boards or roofing paper to shed the water. An opening should be left on south side and this kept closed by means of bags stuffed with straw and a covering of boards. In addition, it may be necessary to place bundles of straw or corn fodder over the opening dur-

ing extremely cold weather. The vegetables may be stored in divisions built into the box or in crates or baskets.

HOOVER WINS IN G. O. P. LANDSIDE

As final returns on Tuesday's greatest vote in the history of the United States were gradually coming to a close, 444 electoral votes had been added to the Hoover-Curtis column, leaving the Democratic standard bearer, Alfred E. Smith, only eight States and 87 electoral votes.

Hoover has 17,431,989 and Smith 12,487,174 of the popular total with approximately three-fourths of the ballots tabulated. The Republicans swept into power for another four-year period, carrying 40 States including four in the Solid South, North Carolina, Virginia, Florida and Texas. Only Massachusetts and Rhode Island remained under the Smith-Robinson colors outside of the South, normally Democratic States.

Missouri again swung into the Republican camp in both National and State affairs, when Patterson defeated Hay for United States Senator, and Caulfield won over Wilson for Governor and with only a few precincts missing. The Republican majority in the State will probably reach 60,000, ranging at present from about 40,000 for Caulfield over Wilson to more than 50,000 for candidates for minor offices. A plurality of nearly 50,000 was indicated for Patterson over Charles M. Hay, Democrat.

Counties Goes Republican
With few exceptions, surrounding counties went Republican. Stoddard County elected only one Democratic candidate, a County Judge. The rest of the ticket gave Republican majorities from 250 to 700 in other county offices. It was the first time in eight years that the county has gone Republican.

With the exception of the Sheriff's race in Cape Girardeau County, it went Republican. Snider defeated Miller, Republican for that office by about 700 votes. New Madrid County, also, is reported to have gone Republican. Scott and Mississippi Counties alone, in this section, carried all or most of the Democratic nominees for County offices.

And so the greatest popular election in all history is added to the past. In Missouri alone, more than 100,000 ballots were cast in excess of any other previous election. The nation as a whole cast an unprecedented number of votes in the election just past, the number will probably exceed early estimates of 43,000,000.

Voting here was orderly throughout the day and night, although some 2200 votes were cast.

AUXILIARY ELECTS OFFICERS FOR 1929

The Auxiliary of the Henry Mel-drum Post No. 114, met with Mrs. W. P. Wilkerson Wednesday evening and after the regular order of business was concluded, the following officers were elected:

President—Mrs. Lyle Malone.
First Vice-President—Mrs. Harry E. Dudley.

Second Vice-President—Mrs. Paul Anderson.

Secretary—Mrs. Tom Roberts.
Treasurer—Mrs. W. A. Anthony.
Chaplain—Mrs. Ben Welter.

Historian—Mrs. E. T. Wheatley.
The Auxiliary will put on a membership drive and all sisters, mothers and wives of Legion men are eligible and should be members.

The Auxiliary will send a box of assorted home-made cookies to the Veterans' Hospital at Excelsior Springs as a Thanksgiving treat. After adjournment, the Auxiliary enjoyed a social hour.

FITZGERALD INJURED ARM IN SCRIMMAGE

A bad twist or sprain of "Skeeter" Fitzgerald's right wrist will probably keep him on the bench until the Cape Girardeau game next week-end. This feather weight guard had the misfortune to have one of Coach Whitmer's men fall on his arm during a scrimmage Tuesday evening. Doctors pronounced the arm broken at the time, but an X-ray made the morning following at the hospital, revealed only a bad sprain, but it is enough to keep The Standard's "devil" out of the game for a week at least.

NOTICE

The members of the Russell-Bradley Missionary Society will meet with Mrs. Paul Anderson Friday evening and all members are urged to attend and bring their offering boxes.

Let your ticket mean 10 votes for the Junior Football Queen Candidate.

SCOTT COUNTY GOES 100 PER CENT DEMO

Unofficial count of votes from the twenty-eight precincts in Scott County are given below for the National, State and County offices. Nearly two thousand more votes were polled in the County in this election than ever before. The total count in 1922 was 6013, in 1924, 6968 and this time, 8918 votes were counted.

Scott County went Democratic, but it is an oasis in the Tuesday-created Republican desert. Stoddard and New Madrid Counties, normally Democratic by safe majorities, went Republican to large extent. In the home County, the race for Representative between C. C. White (Democrat) and George Arnold (Republican) was the closest. White polled 4728 votes to 4320 for Arnold. M. E. Montgomery (Democrat) headed the County ticket polling 5472 votes. J. D. O'Connor came second in number of votes received with 5208.

The race for treasurer between Felker and Dye was also close before final returns came in. Felker received 4803 to 4131 by Dye. The race for sheriff between Tom Scott and W. O. Scott went neck and neck for hours as the early returns dribbled in, but the Democratic nominee, Tom Scott, finally won by polling 4740 to 4162 by Bill Scott.

The complete returns follow:
Smith-Robinson 5159, Hoover-Curtis 3759, Charles M. Hay 5555, Roscoe C. Patterson 3418, Francis M. Wilson 5413, Henry S. Caulfield 3531, for Lieutenant-Governor Frank G. Harris 5098, Edward H. Winter 3531.

This ratio is carried out throughout the State ticket with the exception of the race between Fulbright and Short for Representative in Congress in the 14th District. Fulbright polled 5197 votes to 3276 for Short.

County ticket—
For Representative: C. C. White 4728, George J. Arnold 4320; for Judge of the County Court, First District: George Buchanan (returns incomplete) F. E. Mount, however, was defeated by a large majority; Judge Second District: Anton Le-grand won over Solomon Diebold; Prosecuting Attorney: M. E. Montgomery 5472, J. H. Hale 3453; for Sheriff: Tom Scott 4740, W. O. Scott 4162; Assessor: J. D. O'Connor 5208, Floyd E. King 3155; for Treasurer: C. E. Felker 4803, E. A. Dye 4131; Public Administrator: J. Claude Wy-lie, unopposed; Surveyor: R. L. Harrison 4962, Jas. A. Collier 2880; for Coroner: George R. Dempster 4586, G. T. Dorris 3779; for Constable Richard Township: Brown Jewell 1798, J. H. Hayden 1180.

MRS. DOLLIE DORRIS, HAYTI, REPORTED VERY LOW
Mrs. Dollie Dorris, aged foster mother of Mrs. J. N. Walker, of this city, was reported very low early Thursday morning. Mrs. Walker and daughter, Miss Margaret, left for Hayti, immediately. Mrs. Dorris is about 70 years old, and suddenly became ill.

NOTES ON LEGION SQUARE
The State Highway Department reports that the granite boulder, on which the bronze tablet is to be placed in Legion Square, is on its way from Fredericktown today in a Liberty truck.

It will be unloaded on the Square and work will start at once on facing the space for the tablet.

The drinking fountain is here and Mr. Swanner will commence work on its installation Friday morning.
The Missouri Utilities Company expects to at once remove the two unused poles on the north edge of the Square.

The bronze tablet arrived Thursday morning by express from New Jersey. The plot carries the following inscription, and is now on display in Buckner-Ragsdale Store Co. window:
LEGION SQUARE
In Memory of Those Men of This Community Who Made The Supreme Sacrifice During the 1917 World War 1918
Erected By
Henry Meldrum Post No. 114
American Legion
Legion Emblem

Mrs. E. C. Matthews and son, Edw., will go to St. Louis Friday.
Sgt. Jas. L. Greer, of Poplar Bluff U. S. Army Recruiting Service, is in Sikeston in the interest of getting recruits for the army. He will be located at the Hotel Marshall and will be glad to give all the information to anyone interested.

BULLDOG NEWS AND VIEWS

By Kemper Bruton
he Injuns are comin'
The Jackson Indians will arrive in Sikeston this afternoon (Friday) to try to scalp some Bulldogs. The Bulldogs do not think it can be done. Do you? Come and see.

Considerable excitement was stirred up by Mr. Cunningham Wednesday morning. A contest was started to select a football queen. The candidates chosen were: Seniors—Margaret Baker; Juniors—Josephine Hudson; Sophomores—Ruth Felker; Freshmen—Jeanette Baker.

Margaret Baker is the favorite and seems to be leading by a large majority. The Seniors would appreciate it very much if, when you buy your ticket for the game today (Friday), you would cast your vote for Margaret Baker.

The Legion Drum and Bugle Corps will assist in awakening the town to arms tonight (Thursday). Everyone, old and young, turn out for the pep meeting in Legion Square.
Friday is Sikeston's Homecoming. The Bulldogs meet the fast Jackson team and a lively contest is expected. Turn out, folks, and give your home team a real victory!

Vote for Margaret Baker for Football Queen.
Kendall Sikes gave a "stump" speech on the merits and the platform of his party Thursday morning. James Marshall is expected to put

RUTH FELKER
Candidate For
FOOTBALL QUEEN OF
Sophomore Class
Solicits Your Vote and Influence

up a great political fight in this campaign for queen.

Vote for Margaret Baker for Football Queen.
It is too bad that some of the members of one class will be obliged to vote for the candidate of another. Many votes will be lost this way.
Lynn Swaim is quoted as having a monopoly on the votes for one of the candidates!

Fair enough!
Vote for Margaret Baker!
Beat Jackson!

Mrs. Lon Nall is confined to her home this week on account of illness.
Mrs. Murray Phillips of New Madrid will be the dinner guest of her parents, Mr. and Mrs. C. D. Matthews Thursday.

The T. E. L. Class of the Baptist Church had its regular meeting last Monday night at the home of Mrs. J. R. Harper, with fifty-six present. Each one revealed his "peanut friend", then refreshments were served at a late hour.

R. Everett Knight, of St. Louis, traveling for the Brooks Oil Company, visited The Standard force for a while Wednesday. Mr. Knight will be remembered by many friends in Sikeston and in order that he might keep up with his friends, he subscribed for the paper for a year.

MO. PAC. BEGINS WORK ON CAPE GIRARDEAU SPUR

St. Louis, November 8.—Contractors will start today on the work of building the Missouri Pacific Lines into Cape Girardeau, L. W. Baldwin, president of that railroad, announced today. Permission for the Missouri Pacific to enter Cape Girardeau was granted by the Interstate Commerce Commission last week.

A total of 5.8 miles of new railroad will be constructed out of Illinois, to connect with the old Cape Girardeau and Northern at a point just south of Cape Girardeau. The Cape Girardeau and Northern into and through Cape Girardeau, including the yard and freight facilities, will be rehabilitated as a part of the Missouri Pacific.

The work, which will cost approximately \$500,000, is expected to be completed early next year, and the new line will be operated as a part of the Illinois Division of the Missouri Pacific.

Mrs. Laura Slack, who has been spending the last few months in Tampa, Fla., returned Thursday.

Mr. and Mrs. C. D. Matthews, Jr. will be in St. Louis and Jefferson City the latter part of this week.

Mrs. Eula Bowman Shanks arrived Monday from Colorado to spend the winter with her parents, Mr. and Mrs. W. C. Bowman.

TENTH ARMISTICE DAY PROCLAMATION

President Coolidge—"Whereas, November 11, 1918, marked the cessation of the most destructive, sanguinary and far-reaching war in human annals, and

"Whereas, it is fitting that the recurring anniversary of this day should be commemorated with thanksgiving and prayer, and by exercises designated to further the cause of permanent peace through the maintenance of god will and friendly relations between nations; and

"Whereas, by concurrent resolutions of the Senate and the House of Representatives, in 1926, the President was requested to issue a proclamation for the observance of Armistice Day:

"Now, therefore, I, Calvin Coolidge, President of the United States of America, in pursuance of the said concurrent resolution, do hereby order that the flag of the United States be displayed on all Government buildings on November 11, 1928, and do invite the people of the United States to observe that day in schools and churches, and other suitable places, with appropriate ceremonies, giving expression to our gratitude for peace and the hope and desire that our friendly relations with other people may continue."

One of the fitting ways in which the citizens of this community may celebrate Armistice Day will be to attend the dedication ceremonies of Legion Square at 3:00 p. m., Sunday.

AS I SEE IT

By I'm About Town

Now perhaps we again indulge in the almost forgotten art of publishing a newspaper.

And incidentally get a normal night's rest once in awhile, and occasionally listen to a sermon in church instead of political propaganda.

If the famous year of 1896 was any more hotly contested than the present year it was some year. At that politics and ballyhoo haven't changed so very much even if methods of "putting it across" have.

It would be interesting to know what price our nation pays for this four-year expression of sentiment. To some eight millions of dollars of actual campaign funds, we must add the extra expense of actually balloting, the cost of millions of columns of type and the extra tons of news print, and tanks of printers' ink, not to mention the economic waste of thousands of "workers" in the campaign—and one might add, the waste resulting from not using some 16,000,000 Literary Digest straw vote blanks—if the latter was accurate.

That was originally intended for a serious paragraph.

Among other things we can now turn our attention to pumpkin pie and whipped cream, red cheeked apples and (peaches), ginger snaps and hard, semi-hard and W. C. T. U. cider.

Dave Blanton, we understand, is being sued. Dave works for Wolffs in Columbia, a gent's furnishing store de luxe, and David, poor boy, sold a man a pair of cotton pants, and now the brute charges he was bitten by a boll weevil.

Mrs. Tom Allen was a visitor to Cape Girardeau, Wednesday.

Mr. and Mrs. C. D. Matthews III. will spend the week-end with the latter's parents in Arlington, Ky.

Mrs. Eula Bowman Shanks, E. T. Wheatley and Chris Francis will entertain with a bridge luncheon Friday at the Hotel Marshall.

Mrs. W. O. Scott gave the T. E. L. Class of the Baptist Church, a Halloween party. A large crowd enjoyed going through the fun house, and then to a gypsy camp, where all had their fortunes told. After the Indian house refreshments at the T. E. L. stand were served. Everyone reported a splendid evening of entertainment.

Taking a drive last Sunday afternoon we briefly visited Sikeston and had the pleasure of meeting our friend, Editor Blanton of The Standard, who recently recovered from a critical illness of pneumonia. He looks well, but is still weak. On the drive we noticed some splendid fields of wheat, but the rains had halted cotton picking. Much of it had not yet opened.—Jackson Post.

COMMITTEES NAMED AT LEGION MEETING

Earl Johnson, Commander of the local Legion Post for the ensuing year, appointed regular standing committees for the organization at the regular monthly meeting held in the Chamber of Commerce rooms Wednesday evening.

The following committees were appointed:

Membership: Chairman, Loomis F. Mayfield; members, Dr. W. A. Anthony, H. C. Henry, Gus Martin and Tom Roberts. Legal Committee: H. C. Blanton, Chairman; Members Comrades, Haynes and Bailey. Finance Committee, Chairman W. L. Hutters, members, C. L. Malone, H. C. Blanton. Dance Committee, Chairman, Robley Lennox; Capt. E. T. Wheatley, Ira Shuffit, Paul Anderson and Herb Walton. The Post agreed to devote the proceeds of one dance to repay individual members of the Legion Drum and Bugle Corps for payment made on instruments.

Park or Legion Square Committee, Chairman Capt. E. T. Wheatley; T. A. Slack and Dr. C. W. Limbaugh. Athletic Committee: Chairman C. L. Malone; Howard Morrison and Art Sensesbaugh.

Drum and Bugle Corps activities were left to that organization with regard to attending the Cairo Armistice Day Celebration November 12.

The Post heard a report of the auditing committee, and a report on Legion Square progress. Capt. Wheatley reported to the organization that three civic and fraternal organizations had now agreed to sponsor flower beds for the Square. They are, the Legion Auxiliary, the Woman's Club and the local Boy Scouts.

Stark Bros., at Louisiana, Mo., have agreed to furnish landscape plans and some shrubs. A vote of thanks was extended to the Missouri Pacific railroad for its interest and aid in making the park possible. W. W. Hinchey and Mr. Thomas, both of Saleado, were invited to attend the dedication services Sunday afternoon, and received a vote of thanks from the Post for the flag pole.

After a discussion of membership for the coming year, and following a discussion of a new home for the organization, it was agreed to again repeat the scholarship and athletic award in the High School citizenship competition as was done last year. More complete information on that subject will be released later.

DEDICATION CEREMONIES FOR LEGION SQUARE

Music by Henry Meldrum Post No. 114, Drum and Bugle Corps.

Attention, sounded by Chief Bugler Clarence Cummins.

Introductory Remarks, Post Commander Earl Johnson.

Invocation, Post Chaplain, Father T. K. Woods.

Missouri Pacific Railway Attitude, Supt. C. C. Chapman.

Turning on the Water in the Drinking Fountain.

Unveiling the Bronze Tablet, Mrs. Lillian Miller.

Flag Raising, Boy Scouts of Troops 1 and 3.

To the Color, sounded by Buglers Clarence Cummins and Paul Slinkard.

Presentation of Legion Square to the Community, Past Commander H. C. Blanton.

Acceptance on Behalf of the City of Sikeston, Mayor Ed Fuchs.

The Legion and the Community, Department Vice Commander J. W. Hammonds of Cape Girardeau.

Armistice Day Address, Hon. Ralph Bailey.

Benediction.

Music by Post Drum and Bugle Corps.

FIRST PRESBYTERIAN CHURCH

9:30—Sunday school.

11:00—Morning worship. Sermon by the pastor. The sermon subject for this hour will be "The Planted Man". This is the fourth of a series of sermons on the First Psalm.

6:30—The Young People will meet in the auditorium of the church.

The public is cordially invited to attend any or all of the services.

William Schone, Minister.

Let your ticket mean 10 votes for the Junior Football Queen Candidate.

Mrs. Loomis Mayfield entertained with a bridge luncheon Thursday afternoon.

The U. D. C. will hold its next regular meeting at the home of Mrs. C. T. Old Thursday, November 15, instead of at the home of Mrs. Charles Lindley as announced heretofore.

And the next day it threatened to
snow.

Therefore, notwithstanding, we are
still a Democrat—damn still!

We Democrats now know how Old
Lazarus must have felt when he was
licked by the dogs!

In speaking of buying votes by cer-
tain parties of this town, an election
judge held up his right hand and
said: "So help me God, three ne-
groes voted and turned to those pre-
sent with 'don't we get paid off
here?'"

Arnica used to be used freely for
bruises and for hurt feelings whiskey
was taken in copious doses. To those
who were bruised or hurt in the elec-
tion results we can only recommend
belly wash and it takes a heap to
deaden one's feelings.

Just as soon as conditions get back
to normalcy and our nerves settled,
guess the only subject safe to write
on will be the Uplift on the Farm. It
will be but a few short months now
until Hoover will call the extra ses-
sion, if conditions warrant, and bring
together the greatest farm minds and
tell the farmer to stay in his fields
more and longer hours, stay out of
his car and out of town, produce more
truck, milk and meat for his own ta-
ble and less hell in public. There will
be no use to tell him to buy less on
credit for he has had no credit since
the sheriff arrived. We will try to
keep the public informed as to what
is best for him according to instruc-
tion from Washington.

The protracted meeting to begin at
the Methodist Church in a few days
is certainly timely. The evangelist
should first reconvert the parson
holding the pulpit for his political
backsliding, then reconvert Editor
Denman for his desecration of the
church with his political wisdom, then
work on a goodly number of the mem-
bers for intolerance, which is the
worst of all their sins. It will be ab-
solutely necessary for reconversions
in their own temple before we outsid-
ers will ever have the same feeling
for Protestantism as heretofore.

The Standard has never been any-
thing but Democratic and was for
Smith and Robinson as strong as
mustard. At the same time, it seemed
an impossible task to beat the com-
bination of Intolerance, the W. C. T.
U., the Anti-Saloon League, the
Ku Klux Klan and the Political
Preachers of the land in our own
party, in addition to the Republican
hord that has always been regular.
We are not complaining for we did
our best, and are more than proud of
the wonderful campaign of our lead-
ers who left nothing undone in an
earnest effort to serve the people.

We notice where health authorities
in the East are giving special atten-
tion to oyster beds. Now if they will
look after the oyster heads they will
be performing another good deed.

If we had the regulation of the
radio stations, we would place jail
sentences on all black guards who
use rough and unseemly language
over the air. Old Henderson, from
Shreveport, La., is a disgrace and
should be forever forbidden to broad-
cast unless his talks are censored.

If there was a smile on the face of
any Democrat, Wednesday morning,
it was forced, frozen or a contortion.
It was not a smile that wouldn't come
off. Though they ought to be used to
these political presidential disappoint-
ments by this time. Let's take a
drink of water and try to look pleas-
ant.

Successful candidates and their
friends should have the utmost con-
sideration for their late opponents
who have lost their time and spent
their money making the campaign. If
anyone wishes to do any crowing,
crow over the editor whose hide is as
tough as that of an elephant.

There is much rejoicing in progress
this morning (Wednesday), and much
in the nature of consolation parties.
But there are several long view prob-
lems which yet remain to be solved,
and people have expressed a desire
for the Republican administration to
solve them. We have yet to decide the
tariff question on farm products. Is
the farmer to continue to pay protec-
tion prices for finished products and
sell his goods on an open, or practi-
cally so, market? Nine-tenths of
the Nation's wealth is in the hands of
one-tenth of the population. Does
that bode for good or evil? Are the
same enforcement measures of pro-
hibition to be continued or are they
to be strengthened or modified?
There will be those who will say
"calamity howler" at what is to fol-
low, but such is not our intentions.
There is prolific food for reflection in
the present situation. Things seem
on the surface to be prosperous, and
the Nation has expressed confidence
in continued "prosperity". But there
is the situation, power, wealth and in-
fluence, the latter in the organized
press, is becoming constantly more
and more concentrated in one group,
and that group is in control. Record-
ed history for some 3000 years bears
out the fact that when power, wealth
and influence becomes unduly concen-
trated, it is time to call a halt. We
may have some formula, some means
of correcting conditions before it is
too late. We must wait and see.

Well, anyway, we saved "Chicky"
Jewel by a handsome majority!

And again, the postoffice will con-
tinue to run with the same efficiency
for four years. There is a lot of con-
solation in a dose of oil, they say. It
answers the purpose.

Harry Lampert has the right sys-
tem. He says the Kluxers were
against the Catholics, the Jews and
the Negroes, and he now expects to
join the Kluxers himself just as soon
as they reorganize and take in new
members.

The Also Rans can now seek em-
ployment in some other line. We hope
they will all be the same good fellows
as when making the race. The disap-
pointment is great, but if a clean race
has been made, the loser will be re-
spected and consideration shown him.

This campaign just closed finds the
editor without an apology for any
political paragraph printed, as we
feel there was none that could of-
fend anyone. At the same time, we
tried to print an outstanding Demo-
cratic paper and be of real service to
our party.

Wonder what became of the Tide
of Republican Indignation among
the Western farmers? Instead of
rolling up their thousands for Smith,
the friend of the farmer, they seem
to have wanted four years more of
Coolidge prosperity. Well, anyway,
here's hoping Hoover will devise a
way to fill all our bellies when we are
hungry.

Make hot cheese toast for winter
suppers sometimes. For 12 to 14 slic-
es, you will need 1 pound of medium
sharp American cheese, ½ pint rich
milk or cream, 2 eggs, 4 drops of ta-
basco sauce, ¼ teaspoon salt, 1½
teaspoons baking powder, and 2 ta-
blespoons of flour mixed with an
equal amount of water. Flake the
cheese with a fork. Heat the milk in
a double boiler, thicken it with the
flour and water mixture, and cook for
5 minutes. Add the beaten eggs, the
cheese and the salt. Cook very slowly
until the cheese has melted and the
mixture is thick and creamy. Allow
it to cool and add the baking powder.
Spread on the untoasted side of bread
that is browned on one side only.
Put the mixture on evenly to the very
edges, otherwise they will be too hard
and brown. Brown the cheese toast
delicately under a low gas flame or in
the oven. If desired lay a strip of
crisp bacon across each slice of cheese
toast. Serve immediately.

SCHORLE BROTHERS NOW PRODUCE TWIN LOAVES

In the memories of many of us,
mother was the official baker for the
family—that is, baking was just one
of the many other duties of mothers
of not so many years ago. If she
decided to bake rolls, well and good;
if it so happened that she baked sin-
gle loaves, again well and good, and
double loaves, also, went just as well
with the family—and were no more
trouble for mother than single loaves.
But in time, commercial bakers sup-
planted this former duty, and with
the coming of commercial baking
companies there came also a desire on
their part to give the families who
were supplied with their products,
just what these families wanted.

For almost twenty-five years
Schorle Brothers have supplied bak-
ing wants to people in this commu-
nity, and for many years this company
baked a long single loaf; but recent-
ly public favor declared for a "twin
loaf"—and immediately Schorle Bros.
made the necessary change.

In former days, it was little trou-
ble, if any, for mother to give the
family a change once in awhile from
single to double or double to single,
but not so with this company. Among
other things, this seemingly insignif-
icant change called for the purchase
of three or four hundred "moulds" or
double bread pans. It meant sending
an expert from the factory to make
changes on an automatic mechanical
bread wrapper, and most important
of all, it means a change in the rou-
tine of the bake shop proper. Dou-
ble pans take up more room in the
oven, consequently less bread can be
baked at one time, and so the whole
bake shop system had to be changed.
The new twin loaves went on sale
some weeks ago, but the shop has
only recently "hit its former stride"
in volume of bread produced, accord-
ing to the Schorle brothers.

1928 ILLINOIS CORN CROP EQUALS ANY OF 17 YEARS

Pana, Ill., November 6.—A. E.
Staley, head of the Staley Manufac-
turing Co., Decatur, the largest
starch manufacturing concern in the
Middle West, in an interview here to-
day said that the Illinois 1928 corn
crop excels in quality any corn that
has been produced in the 17 years
that they have been in business.

Staley said his company had pur-
chased 2,000,000 bushels and a car
load received yesterday from Foos-
land weighed 57 pounds to the bush-
el. One year ago, at this time, the
best weight of corn sent to the com-
pany was 47 pounds to the bushel.

Half of the corn this year will
grade four or better, and the other
half five and six. Moisture content
is running 18 to 20 per cent. An ear-
ly planting and good growing season
or responsible for the splendid show-
ing that Illinois corn is making.

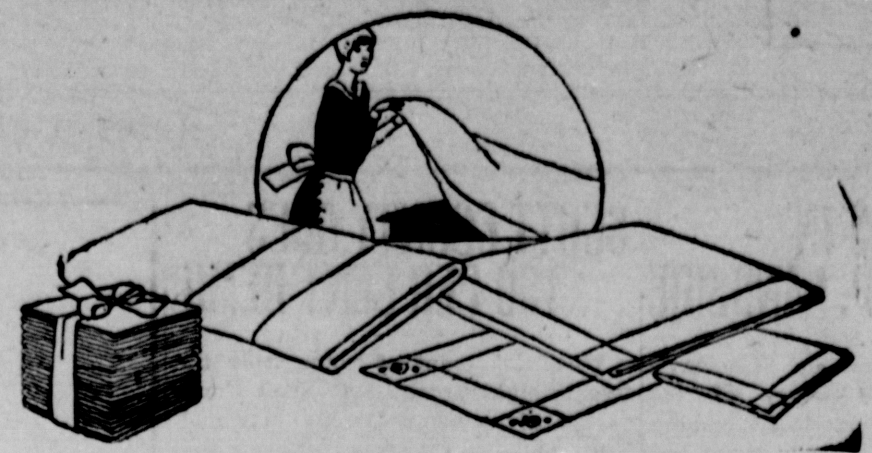

Fifty car loads of corn a day are
arriving at the Staley elevator.

STATE GAME KEEPER BUYS 500 BRONZE TURKEYS

Hollister, Mo., November 6.—Five
hundred bronze turkey hens have
been purchased in this vicinity by
Chief Game Keeper Claude Hunt,
Missouri Game and Fish Department,
and will be concentrated here for dis-
tribution to State parks and refuges
prepared to propagate fine birds and
already provided with native wild
gobblers.

Hunt reports an abundance of tur-
keys in Southern Taney and Stone
Counties, especially of the wild varie-
ty. Flocks are reported from every
section. This is due to a spirit of co-
operation among country folks, who
are finding it most profitable to save
the fowls for outside sportsmen, who
pay liberally for guides able to locate
the flock. Old-time hunters, who used
to fill their larders with young tur-
keys weeks before the open season,
have become guides and are zealous-
ly guarding the native birds that are
prospering on the heavy mast and
abundant grasshopper and devils-
darning-needle.

LaPlata—Northeast Missouri sys-
tem owned by Citizens Public Service
Company will extend service from
here.

Displaying Beautiful New Linens

What a wonderful showing of new linens just in time for Thanksgiving
needs. To make the display even more attractive, we have provided a wel-
come share of special bargains in grades most in demand.

Smart New Styles of SWEATERS

Exploiting the smartest of the new mid-winter styles in sweater
coats. Here in ample time so that you may choose for gift giv-
ing as well as selecting the garments you may wish for your per-
sonal use.

For Sleepy Time

When it comes sleepy time for the kiddies, you should have some
of these cunningly designed garments for them to wear. Made
from warm materials, they'll be comfortable even though they
may kick the clothes off during the night.

SHIRTS for Outdoors Work or Play

If you expect to be outdoors this winter, working
or playing, you should have at least one of these
shirts. Several materials and styles from which
to choose.

E. P. BLANTON BUYS PART- NER'S INTEREST IN PAPER

Paris, Mo., November 2.—Under
the terms of an agreement reached
last Thursday night, Ernest Jewett's
one-third interest in the Shelbyna
Democrat will pass to Edgar P. Blan-
ton, owner of the other two-thirds, on
January 1. Mr. Jewett will remain
in Shelbyna, where he has been a
prominent and useful citizen for so
many years.

The addition of dry skim milk to
bread dough furnishes additional
nutrients and improves the flavor of
the bread, and although it costs more
to make bread with dry milk, the ad-
ded cost is just about balanced by the
increase in yield per barrel of flour,
according to dairy specialists of the
U. S. Department of Agriculture. Dry
milk from skim milk heated to 95 de-
grees C., when added to bread-dough
mixes, produces increases up to 10
per cent in the volumes of the loaves.

DENIES OPPOSITION TO PROPOSITION NO. 3

Hannibal, Mo., November 2.—Use
of the name as an opponent of the
\$750,000,000 road bond project was not
authorized, Senator James H. White-

cotton of Paris, veteran Missouri
legislator, declared today in a state-
ment to the Hannibal Courier Post
Senator Whitecotton said he learned
his name had been used by an oppo-
nent of the proposition as being
against the bond issue.

GONE, BUT NOT FORGOTTEN!

JACKSON PLAYS HERE
FRIDAY—TO ELECT QUEEN

A rousing pep meeting, a parade through town Thursday night on the eve of the Indian-Bulldog game, and a football queen, election previous to the game, is calculated to drum up interest in the game Friday. The Indians come here with a clean slate thus far this season, and Coach Whitmer has a team more or less crippled, with Swaim, Fox, Sutton, Albright,

Fitzgerald and Aufdenburg either on the hospital list or ineligible. Swaim, Sutton, Albright, Watson and Aufdenburg will probably see action Friday.

The queen election will be held during or after the game. Each ticket to the game entitles the holder to ten votes for his candidate. The queen candidates from the various classes follow: Freshman, Jeannette Baker, Sophomore, Ruth E. Felker; Junior, Josephine Hudson and Senior, Margaret Baker.

..LAIR STORE NEWS..

That Interesting Store

Home Furnishings—Undertaking

Our 31st Year in Charleston

Four or five Moore's Air Tight Heaters, all have been used but have been put in good shape, are for sale at low figures. Pay for them by week or month.

Farmers wives who have a lot of cooking to do and want the best range on the market should see the new Monarch. We have a "farm plan" of easy payments which allows one year in which to pay the bill.

Some excellent values in 9x12 Axminster rugs came in Friday and they are already selling. We take a good deal of pride in the values of our floor covering department.

Sellers Kitchen Cabinets are better and better. The new ones in green and grey are the best put out by the Sellers Company. By proper care in choosing kitchen furniture you may have just as pretty combination of color in that room as in any other.

Why not fix up comfortably for the winter by installing a Fairy Inner Spring Mattress? One can scarcely imagine the difference between one of these and the old style regular felt mattress. Try one out at our risk. No comfort, no pay.

Moore's Enamel Ranges take up but little room but My, My, how well they do bake and on such a little bit of fuel, too. If you ever use a Moore's the chances are you will never want to change to another. Moore's ranges are old-fashioned cast iron, the best that money can buy, through and through and it is hard to find a better material for cook stoves.

We have a number of fine player pianos that have been but slightly used which we are offering at extremely low prices. Anyone who has a good Edison or Brunswick phonograph can get a good trade out of us for one of them.

If you voted for a winner you can afford to be charitable. If your man lost, carrying a grouch around for a month or two will not help any. Honest of purpose in casting votes must be conceded to both sides and the quicker we all forget bitter campaign utterances, the better.

Scott County gave us a number of nice orders last week and we're naturally looking for more business from the same source. Remember our delivery truck can run 35 miles an hour if necessary in a hurry up delivery. That means prompt service to any point in Scott or New Madrid Counties.

RED CROSS DRIVE
OPENS HERE SUNDAY

With some 20 city groups, civic organizations and ministers starting the annual Red Cross membership drive here Sunday, November 11, Chairman E. C. Matthews hopes to drive over the top of the County quota of 700 in one day. Every minister in the city will make mention of the coming drive Sunday, and various groups will make an active drive for funds Monday morning.

"The Red Cross organization never waits and never questions", said Mr. Matthews. "It stands ready to administer relief whenever necessary. For instance", he added, "in the New Madrid flood district. Bill Sikes and I heard about the Dorena levee break and were there at 5 o'clock. At six o'clock I received word at home, from Mayor Fuchs, that Sikeston was to be made a refugee camp. He suggested getting the Fair Grounds for that purpose. After that was accomplished, about 7 o'clock, Miss Catherine Greenough introduced herself to Chairman Matthews as director of Red Cross work in this area, and notified me that tents, bedding and camp supplies were even then on the track. That same night some 300 refugees were housed and the next morning were fed by 10 o'clock. About two hundred more were cared for the day following".

If the County quota of 700 is reached, said Mr. Matthews, Sikeston will have to reach a membership of 500 or better, because some of the smaller towns and Chaffee will not bring up the balance unless this city does reach that figure.

TOM SCOTT APPOINTED
SHERIFF BY COURT THURS.

The Scott County Court in session Thursday morning appointed Tom Scott (Democrat) to fill the unexpired term of office of E. A. Dye, whose resignation went into effect November 1, so that he might be eligible to run for Treasurer.

H. J. Welsh, who automatically stepped into the office of Sheriff following the resignation of Dye, will continue as Coroner until the recently elected officer, George R. Dempster, takes office.

NEW SCHOOL LAW WOULD
BENEFIT THIS DISTRICT

Canalou, November 9.—A new school law is now in the making which will, if passed, be the greatest boon to the schools of Missouri of any school law that the State has ever produced.

It will be especially a Godsend to such districts as Canalou, which need help from outside sources.

School men of the State have been working on the bill for some time and expect to have the details completed by the time the legislature meets this winter.

Under the present law, schools are required to vote a levy of \$1.00 on the hundred valuation before they are guaranteed \$50 per child in average daily attendance.

Under the proposed law, a levy of only 65 cents will be required in order to receive the benefits of a \$60 guarantee per child.

Under the new law, this guarantee will also apply to all high school districts, whether consolidated or not. It will also provide more revenue for rural schools.

Under the new law, Canalou will be able to carry on a better school on 65 cents than we now have on \$1. In other words, your taxes will be cut 35 cents.

Where will the State get this extra money? The plan is to get it by means of corporation franchise taxes, income taxes, etc.

A letter just received from the Committee on Legislation states that the town schools of New Madrid County would receive the following State aid under the new law:

Canalou, \$6,380; Gideon, \$17,329; Lilbourn, \$14,063; Marston, \$4,348; Matthews, \$5,837; Morheouse, \$14,365; New Madrid, \$12,661; Parma, \$10,339; Portageville, \$13,001; Kewanee, \$8,669; Risco, \$3,505; Conran, \$5,756.

However, they have used data of 1926-27 in making these estimates, which fails to take into consideration the fact that our valuation was cut 20 per cent last year.

Allowing for this, Canalou would receive \$8263 State aid next year if the new law is passed—and our school taxes would be cut from \$1 to 65c.

LaPlata—Wayne N. Shinn Hatcheries of Greentop establishes branch hatchery here to double capacity.

Over half the story of a good feeder is told in his head and face. A well-bred, choice feeder has a broad forehead, bright clear eyes, short, broad nose, full nostrils, and square jaw. This type of animal is most likely to consume high-priced concentrates at a profit and maintain his quality and beef-type conformation while fattening.

DEFEAT PAVING ON
N. KINGSHIGHWAY

A last minute effort on the part of property owners along North Kingshighway following the regular monthly meeting of the City Council Monday night, resulted in a petition carrying 21 signers, and enough frontage to defeat the measure. Rube C. Matthews brought the paper to the home of P. H. Stevenson late Monday night. It was the last day allowed by law for filing a remonstrance.

Allowance of bills and regular routine business was in order at the Monday night meeting. The Council again met Wednesday night to consider North Kingshighway. After discussing the matter at some length, it was referred to J. F. Cox, Chairman of the Street and Alley Committee. Mr. Cox was instructed to get in touch with experts of the Standard Oil Company, and to report to the Council the findings of these men.

Efforts will be made to repair the street under a local ordinance which allows the expenditure of 60 cents per front foot per year, action being dependent upon the findings of the street and ally committee.

WOMAN'S CLUB HOLDS
IMPORTANT MEETING TUES.

At the meeting of the Woman's Club Tuesday afternoon at the home of Mrs. C. D. Matthews, Jr., the Club accepted the invitation of the American Legion to attend Armistice Day Celebration planned for Sunday, November 11.

It will be held at the new Legion Square and will be a celebration of the acquisition of the Square as well as the signing of the armistice.

The Club heard a glowing report of the Ninth District Convention given by Mrs. H. A. Trowbridge. Short impressions were also given by Mrs. C. C. White and Mrs. L. R. Burns.

The matter of Red Cross donations was discussed by the members, each one signifying her desire and intention of answering the next Roll Call to be held soon.

The Ways and Means Committee under the leadership of Mrs. Paul Anderson made a very gratifying report of the cake and candy sale held last Saturday.

The program was in charge of Mrs. C. A. Cook and consisted of the following:

Concert Etude (Liszt)—Mrs. T. B. Allen.
Elsa's Dream (Lohengrin)—Mrs. Paul Fink.
Group of original poems—Mrs. M. M. Beck.
Etude de Concert (Oancle)—Miss Helen Welch.
Adirondack Sketches (Lane)—Mrs. C. D. Matthews III.

"Oh, teacher! Mary said a bad word! She said Rotterdam!"
"That's not a bad word."
"The hell it ain't."

RUSSELL-BRADLEY NOTES

The waffle supper given by the Russell-Bradley Missionary Society in the Missouri Utilities rooms Tuesday evening was a success. About \$30 was realized. Members of the Society wish to thank those who so kindly assisted them with donations and the Missouri Utilities for the use of their stove and power.

The Russell-Bradley Missionary Society will meet Friday evening with Mrs. Paul Anderson and all members are urged to attend.

It is well to wait at least two weeks after turning under a cover crop before planting the next crop, according to the U. S. Department of Agriculture. The rate of decomposition determines the time that should elapse between the turning under of a cover crop and the seeding of the next crop.

Wonder what R. E. Bailey thinks now! We tried to get him to stay in the race and fight to a finish. What a difference it would have made to the District.

Mr. Raskob seems not to have been a very good guesser according to the telegram printed in the last issue of The Standard, or was he predicting the States that Mr. Hoover would carry?

It would be strange indeed if The Standard did not peeve someone during the course of a political campaign, but this time few can be offended by paragraphs printed. Some members of the W. C. T. U. give evidences of offense because we announced a charge in the future of their meetings. They have money to pay Rowena Shaner and Nell Burger to preach over the State, send in money to headquarters, etc. There is nothing compulsory in placing notices in The Standard, so why complain?

It looks like the dadderned people intend to rule this country and it looks like they mean to rule it dry and protestant. Now, it is up to the people to see that the prohibition law is enforced. Heretofore they have been passive and more liquor has been dispensed than when licensed saloons were with us. No officer can break up this evil without the support of the communities in which it exists. It should now be the duty of the W. C. T. U., the Anti-Saloon League and the preachers, to force officers to do their duty. By force, we mean provide the evidence so the officers can make the case hold. Let's see how the new broom sweeps in this community.

And you, too, Texas!

The close organization of the Democrats of Scott County saved the ticket for the Democrats. H. C. Blanton, as chairman, left nothing unturned to get out the Democratic vote and stop any unlawful voting. Scott County will have but one Republican office holder the next two years and a supreme effort will be made to retire him at the end of his term, as he has been politically offensive to Democrats who elected him.

Of course we regret that our party ticket did not go through with a whoop, at the same time the gentlemen chosen to head the National and State Governments are above reproach as citizens and public officials. We get a little bit of consolation out of the election of Mr. Hoover because he was a piece of a Democrat eight years ago, and quite a bit of consolation out of Mr. Caulfield, the Governor-elect of Missouri because The Standard advised Republicans to vote for him in the primary as he topped the list. The Standard looks for no disgrace in Nation or State under these gentlemen and when we can't beat 'em, we'll get behind 'em.

THE ELECTION

Mr. Herbert C. Hoover has been elected President of the United States in an election of unprecedented participation by the whole people. The Post-Dispatch accordingly salutes him as the next chief executive of the republic. It made a hard fight for the Democratic candidate, Gov. Alfred E. Smith, but it accepts the judgment of the people. They have said in thunderous tones that they want the Republicans to govern the country, and they have emphatically affirmed the status quo. Prosperity is king. So long as the people ascribe the material well-being of the country to the Republican party no other issue can disturb their confidence. They are content with prohibition, and are indisposed to attempt a change. They do not believe that the Government would be any more honest under the Democrats than it has been under the Republicans. Even the farmers, tho' loudly complaining, are Republicans still. In the minds of the people the issue was business. Whether a change in the Government would or would not be a material risk, they were unwilling to chance it.

In our opinion, the disqualifications

of Gov. Smith only contributed to the one-sidedness of the result. His religion broke the solid South, and it was no doubt a contributing factor to the decisiveness of his defeat in many of the States. Nevertheless, had he been a Protestant and a dry, he would not have suffered any better fate than did Mr. John W. Davis in 1924 or Gov. James M. Cox in 1920. The preponderance of the Republican party in the electoral college was never greater. Mr. Harding had 404 electoral votes. Mr. Coolidge had 382. Mr. Hoover tops both these figures with 444 electoral votes. He has carried approximately 40 of the 48 States. With him has gone into power a Republican Congress, as the national ticket has carried Republicans into office everywhere in the States. The victory will be quarreled over by the Anti-Saloon League, the religious intolerants and the industrial interests behind the Republican party. The last, in our judgment, will emerge from this dispute with the popular verdict. Mr. Hughes said during the campaign that there is but one issue before the country, that is prosperity, and he disbelieved that the people would recognize any other. They did not.

The people of Missouri have elected a good Governor in Judge Caulfield. His record is good. He is a public-spirited man. As City Counselor of St. Louis he became highly qualified to sit in judgment in the dispute between the State and the public utilities. That is a difficult field in which the Governor might easily be lost for want of understanding. Judge Caulfield understands it. It will be a grievous disappointment to the Post-Dispatch, and one that belies his own record, if he does not put Missouri in respect to the public utility problem abreast of those alert States which, like Massachusetts, are carrying the battle to the enemy. We congratulate Judge Caulfield, and assure him of our support for public causes.—Post-Dispatch.

YOU FISHERMEN MIGHT PIN THIS IN YOUR HAT

Many a fisherman who knows that angleworms are an excellent bait does not know that to get the very best results from worms it is desirable that they should have gone through a process known as "scouring". W. R. Walton, of the United States Department of Agriculture, who has made a serious study of the earthworm in connection with the damage the worms sometimes do to lawns and golf greens, has also shown that the scouring of worms has been well known to some anglers for hundreds of years and was well described by Izaak Walton, patron saint of fishermen, in 1653. Scoured worms, this entomologist says, are much more desirable than those freshly dug. They will live longer on the hook and will take more fish.

Here is the method of scouring as described by Mr. Walton: Take a quantity of sphagnum moss such as is used by nurserymen in packing plants for shipment. Put this into a stoneware crock or tight wooden box. This moss, which grows in shady swampy woods, should be well moistened, but the excess water should be wrung out before the moss is placed in the container. The worms should be placed in the moss for at least two days, and preferably three or four, and kept in a cool place. At the end of this period they should be almost transparent, tough, and lively. In case it becomes necessary to keep them in the moss for some weeks a little sweet milk should be poured over them at intervals of about a week, but the moss should be washed and wrung out in clean water every week or ten days.

Horses—like people—appreciate a variety in their diet. It is a good plan to make slight changes in their feed occasionally.

MAKE CHANGES IN PHONE BILL DATES FOR SKESTON

Telephone patrons in this city have probably found a small slip enclosed with their regular monthly statement, saying that hereafter the bill will be dated the eleventh instead of the first as heretofore, and that toll charges will be included up to the date of the bill. Formerly such charges were billed up to the twenty-first only.

This change was brought about to relieve the congestion brought about by the peak of activity around the first of the month in the main offices in St. Louis, from which all local statements are mailed. Various cities and towns will receive their bills at intervals during the month, and Skeston's "pay off days" will hereafter fall on the eleventh instead of the first.

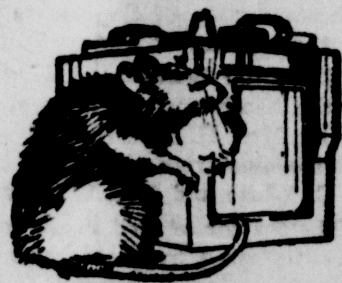

This new plan has already been placed in effect with all large companies in this area with the exception of the Bell Telephone Company, and by January 11, this company also will find its plan working smoothly as now planned. It is thought that this plan will meet with the approval of customers and company alike, because it will be a convenience for the customer to receive the complete charge for all tolls used to date instead of a partial amount, and it will enable the company to issue bills more economically, efficiently and accurately. The next bill for this vicinity will reach here about December 14 or 15 and will be dated December 11.

GENUINE WILLARD BATTERIES AND WILLARD SERVICE FOR ALL MAKES

QUAIL NOT INJURED BY STRYCHNINE-POISONED BAITS

Complaint is frequently made that quail and certain other game birds may be injured by the exposure of baits poisoned with strychnine, which are used in the control of injurious rodents and other mammals. Investigations made by members of the Biological Survey of the United States Department of Agriculture and other interested organizations have shown that such destruction is unlikely to occur. It has been definitely established that gallinaceous birds as a group possess a certain immunity from strychnine poison. This group of birds includes grouse, partridges, quail, ptarmigan, prairie hens, sage hens, pheasants, wild turkeys, and domestic poultry.

Quail in California have been observed to feed to a large extent on strychnine-poisoned baits exposed for ground squirrels, and, so far as known, not a single individual has been killed. Prairie chickens have been known to eat without ill effects enough poisoned grain to kill 100 ground squirrels. A sharp-tailed grouse in Montana ate 400 kernels of strychnine-poisoned wheat without any of the strychnine symptoms developing. Experiences such as these indicate that complaints regarding the destruction of gallinaceous game birds by strychnine-poisoned baits are

founded upon suspicion rather than upon facts.

FINISH REPAIR WORK ON KENNETT LEVEE

Kennett, November 6.—Work by the government on the repair of the break in the St. Francis River levee, northwest of Kennett, on D. D. No. 25, has been completed, according to J. W. Harned, resident engineer. W. I. Duty had the contract on the job,

and the work has been accepted by the chief inspector. All that remains to be done now is to sod the levee with bermuda, and this will be completed Saturday.

In repairing the break, a loop 810 feet long was built and 10,200 yards of dirt was used in building it. The repairing of the other break north of Brown's Ferry will be completed this week.

NEW MADRID COUNTY FARM BUREAU NEWS

A meat canning demonstration was held Monday afternoon, October 29, at the home of Mrs. Cathy in Canolou. There were ten women present, all of whom were very much interested in the cold pack method of preserving meat. Mrs. Dow, Home Demonstration Agent, canned for them a quart of beef, a quart of pork, and a quart of chicken. This is a splendid way of taking care of surplus meat at butchering time and incidentally a very good way of having a fine dinner on short notice in the country. Mrs. Dow told the women how they could in this way save all of the scrap meat, meat from the backbones and ribs, without forcing the family to eat several times more meat at one time than they should. After the meat is taken from the bone, these same bones can be stewed and the broth from them cooked and cold packed, and in this way saved for future use in making soups, gravies, and the foundation for dumplings and noodles. At the close of the demonstration, one woman remarked that she was so glad to know how easily meat could be canned in this way as she had always imagined it to be a very hard and tedious task.

Mrs. Dow has plans made for a great many meat canning demonstrations for this winter in New Madrid and Mississippi Counties, but she also will have time to give a great many more, and it is hoped that any community wanting this information, will get in touch with Mrs. Dow right away.

The women of Canolou were taking a great interest in the extension work, having had a vegetable demonstration at Mrs. Cathy's in the summer as well as this meat demonstration, and according to the conversation Monday afternoon, everyone was delighted with the results of their summer's canning.

ST. FRANCIS FIGHT FOR FLOOD CONTROL TO BE TEST CASE

Information received by the Missourian is that flood control of the St. Francis River, in which a large portion of Southeast Missouri is vitally interested, will be made a "test" case in the fight of all the tributaries for inclusion in protection afforded territory along the Mississippi River under the federal flood control act passed by the last Congress. Upon the outcome of his fight for recognition is expected to hinge the fate of proposed control work along the Missouri, Illinois, Yazoo, Arkansas, White and Red Rivers.

Plans for presentation to Congress of the tributary areas' interests will be made at a meeting called by W. H. Dick, president of the Mississippi River Flood Control Association, to be held at Memphis, Tenn., Tuesday, November 13. At this meeting, which will be attended by possibly 20 Congressmen and 10 Senators, the St. Francis case will be discussed in detail and efforts made to work out an effective method of getting a favorable decision of the issue by Congress.

The St. Francis said by leaders of the control movement to be the best of any of the smaller streams for use as a test case. Its decision is expected to set a precedent which will result in the acceptance or rejection of all the other proposals to put the tributary streams under federal control.

It was explained that the restrictions in the flood control act require that the tributary areas must show there is a "national" phase to their problem before the federal government can lend its aid. This, in a minor way, is the barrier which for months delayed enactment of the bill for control of the main river during the last session of Congress. Mississippi Valley residents were required to prove that the river control was the problem of the nation, not the valley.

Expectations that a favorable decision of the St. Francis case may be

obtained from the next Congress have been voiced by Dick and other members of the flood control organization. During the past several months landowners of the St. Francis Valley have been closely organized and they are prepared for a hard struggle to gain recognition of what they regard as their rights.

The decision Congress makes of the tributary areas' light for federal protection is expected to mean thousands of dollars to landowners in the St. Francis Valley in Southeast Missouri. A large reduction in taxes as the result of the federal government assuming the burden now carried by the levee districts along the St. Francis is involved in the decision. This prospective reduction will have an effect on land values in Dunklin and lower Stoddard and Butler counties, it is anticipated.

At the Memphis meeting, at which levee boards which compose the national flood control organization and landowners in the affected areas will be represented, a number of problems relating to control work will be discussed. One of the discussions will deal with the Jadwin plan, adopted by the Flood Control Commission, which provided for a riverbank floodway from Birds Point to New Madrid, thru Mississippi County. Engineers will speak on the feasibility of the plan and may suggest to the association and the members of Congress attending changes they deem necessary in the plan.

Other subjects to be discussed will include further legislation for aid of the areas bordering the rivers, and interpretation of the 1928 flood control act. In connection with the latter subject landowners are expected to seek opinions as to what they may expect if the Jadwin floodway is employed.—Southeast Missourian.

Where moderate applications of manure are made to land at this time of year, it pays to add 40 or 50 pounds of superphosphate with each load. This may be put on the manure either in the stable or after it is loaded on the spreader.

Beef cattle purchased in the fall for grass-grain fattening should be "roughed" through the winter so as to gain from 50 to 75 pounds. Cattle handled in this way will generally make greater gains the following summer than cattle making larger gains in the winter.

ARE YOU SUPERSTITIOUS?

BY FRANK ELLIS, JR.

Miners

IT is a fact that from the earliest times mines were supposed to have been guarded from intrusion by serpents and demons. It is thought that goblins are jealous of man's ability to find the hidden treasure in mines and they diffuse malevolent and poisonous influences to blast the lives and limbs of those that dare to attempt the discovery.

It is believed that there are six kinds of demons, "the fifth sort of which are subterranean, living in caverns and hollows of the earth, often killing and hurting well diggers and miners for metals, causing earthquakes and eruptions of flames, and strong winds." The existence of spirits in a metallic form would torment the workers in German mines and in some countries, by causing blindness.

giddiness or sudden sickness, often making it necessary to abandon mines known to be rich in metals. Thirteen miners were found dead together from such causes.

The belief was prevalent among miners of a species called "knockers." They were heard underground in or near the mines. And by their knocking pointed out to the workmen a rich vein of ore.

There is an imp called "Gothon" which causes the miners a great deal of trouble, deluding them with false lights, noises and flames. Another is the appearance of a demon in the form of a "black dog."

The demon feared most by the miners is the Knauff-krigen. The miners are often knocked down by devils which they call Knauff-krigen. After such falls the miners often die in the space of three and four days.

THE KITCHEN CABINET

(©, 1928, Western Newspaper Union.)

"In a large part the insubordination of servants arises from the growing sense of unwillingness to be directed and governed by the individual."

"It is the spirit of the age which rebels against the dictates of the individual, but submits freely to the despotism of an organization."

SEASONABLE DISHES

As our seasons are so variable it is hard to determine when summer ends and fall begins. We usually have as uncomfortable hot days late in the season as any time during the summer. It is not wise to retire all the summer dishes, for they may be much needed during the fall months. This year cucumbers seem to be especially good and abundant. Try putting up some in this simple way:

Cucumber and Celery Pickles.—Fill quart or two-quart glass jars with small sized cucumbers or if large cut them lengthwise into finger-sized pieces, arrange five to six stalks of celery and one or two small onions in each jar; when well filled with the vegetables fill with the boiling hot vinegar, using one quart of vinegar (if very acid dilute with water), one cupful of sugar and one-half cupful of salt. Seal the cans and put away for use in a week or two. Onions as well as cucumbers may be sliced, if too large to serve.

Here is a simple mustard pickle which is especially good for those who can add the cucumbers daily to the pickle. Use one gallon of vinegar, one-half cupful of mustard, one cupful of salt, two cupfuls of brown sugar. Mix cold and put into a large jar, adding a quart or two of small cucumbers as they grow. Cover with horseradish leaves and set away.

French Potato Salad.—Cut a large onion into slices and put to cook in a saucepan with two to three tablespoonfuls of butter. Cook until very soft. In another saucepan cook four medium sized potatoes cut into bits; while they are cooking add a little of the potato water occasionally to the onion to finish cooking until tender. Mash the potato, add the onion and one quart of good milk, season well with salt and pepper and serve very hot. This makes a nice supper dish for a cool night.

Nellie Maxwell

Flat River—Christian church here dedicated recently.

The size of the business of a farm is of the utmost importance in attaining a reasonably high standard of living, and there are many farms with a business too small for sufficiently large returns.

The late Abraham Isaacs, of Cincinnati, Ohio, left seven college professors among his 11 surviving children. They are located at Harvard University, the University of Rochester, the University of Michigan, Harvard Law School, Columbia University, the University of Pittsburgh and the University of Cincinnati.

Did you ever hear of a Mouse Farm? An English paper, according to The Animals' Friend, tells of one in Essex where on a single acre there are 50,000 raised for university and medical schools for cancer research work. One department is known as the Nursery, where 300 mice are born daily. How true that "the best-laid schemes" of these poor mice "gang aft a-gley".

Beautiful Actress

. . . Countless Admirers

—The secret of her blasted life told for the first time

"MAGDA, the saintly," her friends called her. For though this beautiful actress had countless admirers, she steadfastly refused to let the slightest suspicion of love or romance enter her life.

Then something happened. The treacherous tongue of scandal linked her name in an ugly way with that of a man of great social prominence.

For some strange reason Magda neither denied nor confirmed these rumors. The poison spread. One by one her friends deserted her. Even her youthful protegee, a young man in the cast whom she had encouraged and helped with all her strength, publicly denounced her as unfit for decent people to associate with. Had he known the truth he would have

cut out his tongue rather than breathe a word against her character.

Then Magda's play suddenly closed. Crushed and in despair, she sought out the man responsible for her wrecked reputation, and threatened to expose him—to tell the world the truth.

"I dare you to!" he snarled through evil lips. And Magda knew her fight had just begun.

Until now, the sensational truth about the venomous scandal which

blasted her life has remained securely locked in Magda's aching, grief-stricken heart. But now her story can be told. It is entitled "Beyond the Pale," and appears complete in December True Story Magazine.

Time in on the True Story. Hear broadcast every Friday night over W.O.R. and the Columbia chain. Consult Your Paper for Exact Time.

Those who gripe and run away will live to gripe another day.

And the worst of it is: No Balm of Gilead in the way of spirits' lament to deaden the pain!

We might add in wonder, how many of our professed (politically) dry friends celebrated the victory in the little brown jug—instead of a little brown dreby.

One thing that most of us can feel jubilant over is the splendid majority given to Amendment No. 3 to issue \$75,000,000 road bonds to complete the present system and to link up more closely the different communities with one another. The Standard would like to see the cutoff from Morley to Oran, to Chaffee, to Dutchtown and Jackson, built out of the first available funds. It would save 14 miles from this section to St. Louis and give those communities a much needed outlet. Rah for the bond issue.

Sikeston Standard, \$1.50 per year.

Just to give these four Southern States, who voted for Hoover, what they deserve, we would like to see Mr. Hoover appoint negro postmasters in all the cities and towns. To see the equal rights bill forced on them and to see their representation in Congress cut to the limit the census calls for. To see the Jim Crow law declared unconstitutional, and in Texas the negro given the right to sit in white churches and in white theaters in any part of the houses that is open to the public of any nationality. These States have opened the door for the old Force Bill and the Dyer Anti-Lynching Bill by permitting the Republicans to gain control of both branches of Congress, the President and the Supreme Court. Go just as far as you like, you can't hurt me.

Miss Emily Blanton spent the last week-end in Malden and Gordon Blanton visited there also last week-end.

Miss Audrey Chaney will entertain with bridge Friday evening complimenting Mrs. Joe H. Allen of St. Joe.

Mesdames E. T. Wheatley, Chris Francis and Earl Johnson were visitors to Cape Girardeau, Wednesday.

The Co-Workers will meet at the home of Mrs. E. J. Keith at 113 N. Ranney Tuesday afternoon at 2:30 o'clock.

Mrs. Betha Kilgore left for St. Petersburg, Fla., where she will visit with her son, Fred and family, for the winter.

Mesdames Betty Matthews, Jane Mills, A. J. Moore and J. N. Chaney were visitors to Cape Girardeau, on Wednesday.

Paris, Mo.—This week-end marks the end of the Mutual Telephone system here. Connections have been made with the Paris Bell exchange. Some 32 additional lines are thus added to the Bell system.

HONOR FRANK DENNY AFTER 30-YEAR ARMY RECORD

Master Sergeant Frank Denny, Detached Enlisted Men's List, who is on duty as Sergeant Instructor with the 140th Infantry, was placed on the retired list this week, after completing 30 years' service in the Army.

The General Order given below will give an idea of his service during that period.

The parade this afternoon will be in honor of Master Sergeant Frank Denny, D. E. M. L., who is due to retire from the Army in November, 1928, after completing 30 years' service.

Master Sergeant Denny first enlisted on May 17, 1898 and served in the Spanish American War in the 3rd Kentucky Volunteers, and in the Philippines Insurrection in the 41st Volunteers. Later he served in the 6th, 18th, 13th, 15th and 26th regiments of Infantry, in the grades of Private, Corporal, Sergeant and 1st Sergeant. From July, 1917 until November 12, 1920, he served as 2nd Lt., and 1st Lt., in the 53rd Infantry, then followed a detail at the South Dakota Agriculture College, and for the last six and one-half years he has been on the Detached Enlisted Men's list. Four years of this has been spent with the 140th Infantry.

Master Sergeant Denny has been tireless in his efforts to be of assistance to individuals and organizations of this regiment, and while the 140th Infantry, will regret to lose Master Sergeant Denny, the best wishes of the officers and men go to him as he contemplates his well earned retirement from active duty after service in many lands with the armed forces of the United States.

A. D. BELL WAYLAIED AND ROBBED WED. NIGHT

A. D. Bell, truck boss for the Swartzman Company of St. Louis, was waylaid and robbed Wednesday night about 7:30 o'clock. According to his story told police here that night, he had agreed to allow a Cairo woman to ride with him to Dexter. When his car reached the Brown Spur detour on Highway 60, another car blocked his passage, and he was attacked with an iron bar and struck with the butt of a pistol. He reported the loss of about \$3 in cash and a check for \$28. The woman, he said, was picked up by his three assailants who drove West on the highway. He returned to Sikeston, where his wounds about the head and shoulder were treated at the Hospital.

ROAD REPORT

The road report for this division remains the same as last reported, namely that all roads are in excellent condition and that the weather continues cool and clear, with the following exception:

Route 25—Festus-Perryville-Kennett-Arkansas State line—Bloomfield to Dexter (Int. U. S. Route 60) 7 miles. Under construction. Detour from Bloomfield to Essex, 9 miles, over county gravel road, good; thence to Dexter, 6 miles, over U. S. Route 60, gravel surface, good.

Well-cured seed corn will yield a much better crop than seed originally as good but injured through lack of care. Good seed is often ruined because it is thought to be dry enough when gathered and insufficient care is taken to cure it.

AGREEMENT ON PRICE FOR PICKING COTTON

Caruthersville, November 5.—A meeting of farmers and bankers of Pemiscot County was held Friday night at the court house here relative to the proposed establishment of a uniform price to be paid for cotton picking in Pemiscot County.

The meeting was called by the Pemiscot County Bankers' Association, which includes all the banks and trust companies in the county. More than 100 farmers attended the meeting at which the cotton picking situation was discussed.

The bankers told the farmers that if they continued paying \$1.50 and \$1.75 per hundred for cotton picking, that they would lose money on their crop this year. It was stated that the farmers would lose \$300,000 of their legitimate profits if they continued to pay the present price for cotton picking.

The question was discussed by the farmers with advice from the bankers, and the outcome of the meeting was an agreement between the farmers that they would pay a maximum price of 20 per cent of the market price of cotton for picking. At the present price of six cents; this provide pay of \$1.20 a hundred for cotton picking. All of the banks of this county agreed to aid the farmers in enforcing this agreement.

Notice was given by the bankers that no money would be loaned next year to those farmers who broke the agreement and paid more than the maximum of 20 per cent of the market price of cotton for picking.

Barney Greenway of Cottonwood Point served as chairman of the meeting, and he appointed 15 farmers of the county as a committee to enforce the agreement. Each member of the committee is to appoint two more farmers in his neighborhood to help enforce the agreement.

The committee consists of W. M. Collins, Judge McCulloch, C. O. Raine, Harry Cunningham, J. W. Asher, Jack Lynch, H. M. Hoffman, Dick Wilson, Isaac McKay, L. B. Grishom, Henry Cain, L. N. Sandage, J. W. Gaither, E. E. Watson and Sherman Rice.

HUMANS CONTRACT NEW ANIMAL DISEASE

Springfield, Ill., November 5.—Warning against a new contagious animal disease, undulant fever, which "threatens to eclipse the problem of bovine tuberculosis in magnitude", was made today by Dr. Isaac D. Rawlings, director of the State Department of Public Health.

Ten cases among humans have been reported in Illinois since July, and probably many more have occurred, Dr. Rawlings said. The disease is widely prevalent among cattle, goats and swine, but only recently showed any decided tendency to spread to humans.

"Caused by a bacterial organism undulant fever occurs in several strains among lower animals", Dr. Rawlings said, "the most virulent and dangerous to man being the type found in hogs. Many swine in Illinois are already affected and it appears to be transferred from hogs to milch cows and from cows to man through the medium of raw or unpasteurized milk. There is some

Many Thanks

I desire to extend to all the citizens of Scott county my sincere thanks and appreciation for the support and work extended in my behalf.

C. C. WHITE

Card of Appreciation

I take this method of thanking the people of Scott county for their contribution of votes and work in making my recent campaign for Coroner a success.

CORRESPONDENCE FROM MATTHEWS

Last Friday night at about 9:00 o'clock, some tourists, going north, stopped in Matthews and told Constable W. H. Deane that a woman was lying in the Mile Road, apparently dead and that they were afraid to stop as there might be a holdup staged. Deane, with some other citizens, drove out the road leading to Highway 61, and found a woman in the road, but she was alive and nearly frozen. She told the officers that she and her husband were picked up at Blytheville, Ark., by a man in a car and promised a ride to Skeston. When they got near Lilbourn, the owner of the car got some whiskey. They all drank a little. Her husband was put out at a filling station and the man drove on with the woman. He attacked her, near the place where she was found and threw her out of the car, where she was found in a most pitiful condition. She was taken to the Franklin Hotel and cared for until the next day. Her husband found his way here Saturday morning gave his name as Wright and said he had worked in Skeston. The man who committed the terrible deed, is a citizen of Skeston. We will withhold his name out of respect for the family. A warrant was sworn out for him and he was brought to Matthews and gave a \$500 bond.

Walter Fant, of the U. S. Navy visited friends and relatives here several days last week.

Hallowe'en was well celebrated here. The Juniors entertained the Seniors and faculty with a masked party at the high school.

Clifford Reed has returned from a trip in the west.

G. F. Deane and daughter, Miss Frankie, shopped in Skeston Saturday.

Mrs. J. Val Baker and Mrs. Denton of New Madrid were Matthews visitors last Tuesday.

Mrs. C. L. Yates motored up from Lilbourn Sunday to visit her mother, Mrs. R. H. Byrd.

Charles King and family of Golconda, Ill., visited here with his brother, J. R. King and family, last week.

The seventh and eighth grades gave a Hallowe'en party for their classes at the King Supply Co. hall.

Miss Flossie Reed entertained the Christian Endeavor Society with a masquerade party at her home Monday night.

Supt. Englehart and wife and Mrs. Fletcher Gregory of St. Louis were dinner guests of Mr. and Mrs. W. H. Deane, Sunday.

Mrs. Frank Sutton and little Clara Ellen left Saturday for St. Louis to visit with Mrs. Sutton's brother, Earl Dickman and family.

The football team of Matthews is playing good ball. They have lost but one game. Friday they played New Madrid with a 19-14 victory.

The young bloods of Matthews had a big party piling all kinds of machinery in front of stores and moving things around in general. But we are proud they didn't try to damage property.

All farm timbers used in contact with the ground should be of durable woods or of "sap" woods treated with creosote. This includes timbers used for foundation sills, stable floors, hog houses, gates, poles, and fence posts. For fence posts use only the more durable woods, such as black locust, red cedar, white or post oaks, chestnut, red mulberry and sassafras, or treat with creosote "sap" timbers such as soft maple, basswood, polar, gums, or sap pines.

LOCAL NEWS FROM BLODGETT VICINITY

Rev. Doss and family are moving here from Bertrand.

E. R. Putnam made a business trip to Memphis the past week.

Charles Stewery of Chaffee was a business caller here, Monday.

Ben J. Gratz of St. Louis was a business visitor here this week.

Claude Noel and friends of Poplar Bluff visited friends here Sunday.

Miss Mabel Caughlin, who is teaching at Illinois, spent the week-end with homefolks.

Stephen Peal, who is teaching at Commerce spent the week-end here with homefolks.

Mr. and Mrs. Bean entertained several friends at dinner last Wednesday evening.

Mr. and Mrs. W. H. Stubbs and Dr. Ogilvie had business at the county seat Thursday afternoon.

Mrs. Charles Stubbs and son of Blytheville, Ark., were here Saturday and Sunday looking after their property.

Robert Rister was thrown from a mule last Wednesday, breaking three ribs and his body was painfully bruised, but he is improving now.

Mr. and Mrs. O. B. Embry, who have been living in the parsonage for the past two years, have moved to the house vacated by Mrs. Charles Hale.

Blodgett won their fourth football game Friday, score 6 to 0. Bertrand was the losing team. They will play Vanduser Friday. Blodgett patrons are invited to come out and show the team you want them to win.

Miss Kate Austin of Skeston was an out-of-town guest at the Hallowe'en party at the home of Mr. and Mrs. Ben F. Marshall, also Mr. and Mrs. B. Haven Sneyer of Chicago, who are visiting Mr. and Mrs. D. M. Jester.

Misses Mary Davis and Lorene Hamby entertained Friday evening at the home of Mrs. Harry Stubbs. Bridge was played at 3 tables. Mrs. Parker had high score for the ladies and Ross Lemons was leader of the men. A salad course was served.

The members of the Woman's Club entertained their husbands with a Hallowe'en party at the home of Mr. and Mrs. Ben F. Marshall last Wednesday evening. The house was beautifully decorated and after some very interesting contests, cards were played at seven tables. A plate lunch, Hallowe'en style, was served. The entire evening was enjoyed by all.

Give the hens a heavy feed of grain at night as cold weather comes on. It is a long time between their evening meal and breakfast.

Hogs affected with cholera are a constant menace to non-immune hogs. Do not bring susceptible hogs on to the farm as long as any sick hogs are around. It is best to wait three months after removing sick hogs, unless in the meantime the premises have been thoroughly cleaned and disinfected, says Dr. U. G. Houck, hog-cholera expert of the U. S. Department of Agriculture. Special care should be taken in cold weather, as infection persists longer in winter than in summer.

A number of vegetables are suitable for filling with stuffings of various ingredients. Eggplant, green peppers, large Spanish onions, cymplings, tomatoes and cabbage are among those often served on this way. Usually the stuffing is made of other vegetables, ground meat, and some starchy material such as bread crumbs, or cooked rice, or spaghetti, to give body. A great many combinations are possible in stuffings and they offer an excellent way to use up small portions of leftovers. For stuffed onions, for instance, the following combination is particularly good—chopped celery, buttered bread crumbs, ground cooked ham, and a little leftover gravy or sauce to act as a binder. Most stuffed vegetables can be prepared early in the day and set aside until it is time to reheat them. For this reason, and because they are tasty and unusual, they are well adapted to "company" meals when one wants something a little out of the ordinary.

**ALLEN SWAIM INJURED
IN PLAYGROUND ACCIDENT**

During the physical education period at the high school last Wednesday evening, Allen Swaim ran head-on into another student. Swaim was brought to the Emergency Hospital,

where Dr. Kendig took three stitches in a long wound over his right eye. Swaim went back to his studies little worse for his experience.

**IF YOUR VIEW
BOTHERS—MOVE IT**

Few housewives escape monotony of work in the home altogether. Given a good income, an average husband and provider most of them, it is said, make out fairly well with their respective choices. But even with a good home well furnished, there is a constant fear that someone may build a filling station on the corner, or erect a bill board to cut off the view. The point is that wives generally are able to manage every detail of location of their home except possibly the view—that remains fairly constant. That one problem of the many of keeping house does not bother two Sikeston visitors, Messrs. Clarke C. Wright and J. L. Schaupp, who settle their problems of view from the parlor window or the back door either for that matter, by simple expedient of turning the crank at their "front porch".

These gentlemen own and operate, "keep house" in other words, in one of the most complete houses on wheels imaginable. Running water, gasoline stove, full sized bed and cot, clothes closet, kitchen cabinet, electric lights, toilet facilities, screened glass windows, phonograph and typewriter—these are a merely a few of the modern conveniences of this Ford-propelled house on casters.

The auto house is unique in many respects. Running water comes from a 25-gallon air pressure tank located under the house, the full-sized bed swings up under the roof and directly over the steering wheel and out of the way when the truck is in motion. The kitchen cabinet, and clothes closet are built-in features along the sides.

Mr. Wright, designer and builder of his now-here-now-there home has incorporated a help-yourself-out-of-the-mud, if any, feature on this car. A piece of lumber extends over the sides of the truck just over the rear axle, and which is normally carried there out of the way. In case the truck mires down, a crank located in the front parlor operates a rope which drops this to the ground, and a bit of prodding with levers usually lifts the rear end of the truck out of trouble. "So far, though in three years of constant traveling," said Wright, "I have worn out three ropes showing people how it works, and I've only been called upon by necessity four times".

These two men, Wright and Schaupp are traveling in the interests of a new rubber auto enamel, called Steelcote, and the car panels graphically tell the tale, as do various other articles on and in the truck-home itself.

Their present plans call for an extended tour of the Southern States of the Union, and a journey into Old Mexico before heading back to Colorado. The two housekeepers with an amenable view drove into town late Tuesday evening, and parked on Front Street that night and the day following.

**MO. PAC. CONSIDERS
BUYING BUS LINES**

Motor bus freight and passenger lines, comprising hundreds of miles in Arkansas and paralleling the Missouri Pacific lines in practically every section of the State, are proposed by the Missouri Pacific Transportation Company, of St. Louis, a subsidiary of the Missouri Pacific Railroad Company in application for 22 operating permits filed Monday with the Arkansas Railroad commission.

The system will afford a network of motor bus routes in Arkansas and will be the most extensive ever inaugurated in that State. Hearings on the applications will be held by the commission at Little Rock, December 12.

The twenty-two petitions filed Monday ask for permits to operate motor bus lines at practically the same freight rates and passenger fares as are now charged by railroads over routes from Moark, on the Missouri-Arkansas line, south through Little Rock to the Arkansas-Louisiana line and elsewhere.

The Missouri Pacific is also planning purchase of a network of bus lines in Missouri, it was learned yesterday. This includes the Scofield bus line.

In loving memory of our dear son and brother, Leslie M. Cope, who departed this life one year ago, November 6.

His smiling face and pleasant ways, are a pleasure to recall. He had a kindly word for each, and died beloved by all.

Some day we hope to meet him, some day we know not when. To clasp his hand in the better land, never to part again.

Sadly missed by Father, Mother and Brother.

Jackson—Eleven blocks paving will be laid here.

**STOCK SHOW TO
DRAW HUGE CROWDS**

The spotlight of the nation will be trained upon Chicago from December 1 to 8, when the International Live Stock Exposition will open its doors to farm and city folks and to the finest specimens of crops and live stock that the year 1928 has been able to produce.

Each day of this final and crowning event of the year's agricultural show season will be crowded with many and various activities that will keep visitors occupied every moment of their stay. As a curtain raiser, the non-collegiate judging contest is scheduled for the day prior to the official opening.

Saturday is young folks' day at the International, when the junior live stock feeding contests and the inter-collegiate judging contests will take place. Carloads of fat cattle will be judged, and the first of the Grain and Hay Show scoring begun.

Monday brings the judging program into full swing, with Walter Biggar of Dalbeattie, Scotland, tying the ribbons in the steer classes. Monday might be called "fat stock day", since the steers, wethers, barrows, and draft geldings are all listed to face the judges. Shires are scheduled for the horse ring on Monday afternoon, and the day will also usher in the opening of the Boys' and Girls' Club activities, as well as the first of the week's regular night horse shows of the country's choicest specimens of light harness and saddle horses.

Tuesday opens the judging of the Angus, Hereford, Shorthorn and Red Polled breeds, and completes that of the fat cattle, with the awarding of the steer championships. The inter-collegiate meat-judging contest takes place on this day, as does the judging of Percheron and Belgian horses; Shropshire, Dorset and Southdown sheep; and Berkshire, Chester-White, and earload-lot hogs. The Milking Shorthorns will line up before the judges on Wednesday, and in their separate divisions of the show, the Hampshire, Lincoln, Cheviot and Rambouillet breeds of sheep, and the Duroc-Jersey and Hampshire breeds of swine will also compete for the top ribbons.

Mrs. Martinez de Hoz, an Argentinian, who comes to Chicago from South America specially to judge the Shorthorns, will compete his duties on Thursday, with the placing of the Polled Shorthorn breed Oxford and Cotswold sheep; Poland China and Tamworth hogs; Belgian and Clydesdale horses are also on Thursday's docket.

That picturesque and shaggy haired breed of Scotch cattil, the Galloway will occupy the judging ring on Friday, and Spotted Poland China and Yorkshire swine, Suffolk and Clydesdale horses will also be viewed on this day.

**BLITHEVILLE CHEESE PLANT
TO BEGIN OPERATIONS SOON**

Blitheville, Ark., November 2.—This city will manufacture its first cheese within a few days, when the Blitheville Cheese Co.'s factory will begin daily operation. Having announced that 7500 pounds of milk can be used daily if this amount is available, plans are being made by farmers to purchase more cows.

More than 150 cows have been asked for by farmers through the Livestock Finance Corporation, and these will be resold to the individuals within the next 30 days. This corporation placed the first cows here a year ago and since that time has bought and resold several hundred cows. They are paid for on the weekly purchase plan.

The cream cheese will be made from pasteurized milk and will be sold under the brand, "Blitheville Cheese". If impossible to dispose of all the product in this locality it will be shipped to Northern markets. Officers of the company, which will soon be incorporated for \$6000 are: Frank C. Douglas, president; E. D. Ferguson, secretary and treasurer; C. H. Leuche, manager; B. A. Lynch, Joe Isaacs, Frank C. Duglas and A. G. Little, directors.

HELP PREVENT FARM FIRES!

Water where and when needed would prevent a large percentage of the fires in rural districts which last year caused the death of 3500 people and a property loss of \$150,000,000. Most fires are the same size at the beginning unless caused by an explosion and it is only those which are not brought under control immediately that cause this huge loss to life and property.

Few rural districts enjoy the safety and protection of a rural fire department, but many farms can provide an effective means of protection by means of a farm water supply system which can also be used every day in the year to provide a plentiful supply of running water in the farm home and buildings. Hydrant and

hose connections at strategic points around farm buildings and yards will provide water for quenching fires before they gain a start. A fire well started is difficult to overcome even with regular fire fighting equipment.

A fairly satisfactory home storage pit for vegetables for use in sections where the weather is not extremely severe can be made by half burying a large wooden box in a well-drained and partially protected place in the open ground. The box should be lined with some kind of insulating material such as building paper and several inches of straw should be placed around it. Enough soil should be mounded over it to keep out frost and the top protected by a roof of boards or roofing paper to shed the water. An opening should be left on south side and this kept closed by means of bags stuffed with straw and a covering of boards. In addition, it may be necessary to place bundles of straw or corn fodder over the opening dur-

ing extremely cold weather. The vegetables may be stored in divisions built into the box or in crates or baskets.

Theft Ties Up Newspapers

Poplar Bluff, November 6.—Railroad detectives yesterday arrested a man who said he was W. H. Owens of St. Louis and recovered 40 linotype spacebands stolen from the two newspaper offices at De Soto. The theft temporarily tied up work in the newspaper plants until the spacebands were returned last night.

Gray mold, or neck rot, of onions, one of the most destructive storage rots attacking this vegetable, should be controlled by thoroughly and rapidly curing the onions at harvesting time to prevent infection. The casual fungus can grow and cause decay at cold storage temperature and it is too late to effect control at the time of refrigeration.
